

DistanceLearningCentre.com - Additional Information & Application Guidance

DistanceLearningCentre.com Ltd is based in the UK and was established by a group of qualified teachers and lecturers in 1993, which makes it one of the longest established organisations of its kind. Our level of experience has led to us having a strong reputation for professionalism, reliability and quality, particularly with the Higher Education Institutions into which our students progress. We typically have over 700 learners progressing to over 100 different Universities each year.

Over the past few years, DistanceLearningCentre.com has expanded rapidly with over 2000 students studying at any given time. Although the organisation receives no government funding, it is still able to provide high-quality courses at more competitive rates than most colleges. Our teaching staff are highly committed, working as a close-knit supportive team, communicating regularly even though they all work from home. This approach is central to our ethos which is all about dedicated experienced educators enabling students to succeed in a friendly environment that contrasts significantly from traditional FE Colleges. Our staff turnover is very low, for the sector, as we employ and treat our staff as vocational professionals. We expect high standards from our staff but are very much opposed to the 'blame culture' which many teachers have experienced. Instead we operate a culture of support and openness in terms of tackling any problems which arise.

DistanceLearningCentre.com offers a range of distance learning courses (100% online) and specialises in Access to Higher Education Diplomas (accredited by Ascentis and QAA regulated) for learners wishing to enter Biomedical Science, Business, The Built Environment, Health Professions, Humanities, Law, Medicine, Midwifery, Nursing, Paramedicine, Physiotherapy, Psychology, Public Services, Social Science, Social Work, Sports Science, Teaching and other Health and Social Sciences. We also provide Level 2 qualifications in English, Maths and Science, Functional Skills and GCSEs.

We offer a uniquely individual, friendly and supportive service to all our students. This gives them every opportunity to succeed and fulfil their potential, studying flexibly at their own pace. Studying with us means students can work at home but still have a direct link to their own personal tutor through the Internet, by telephone or by post.

DistanceLearningCentre.com is particularly useful for people who for some reason cannot, or would rather not attend formal classes in a traditional college. We deliver with a personal touch producing high-quality materials which only trainers with over 25 years of writing distance learning materials can achieve. We are very proud of our record of helping many people to realise their potential who may not have normally had such an opportunity due to: family or work commitments, social or cultural circumstances, geographical location, disability or simply a lack of confidence.

We are dedicated to operating with minimal environmental impact and recruit to provide equal opportunities irrespective of race, gender, age, sexuality or disability.

How to Apply

Please complete the Application Form and send by email (preferred) to humanresources@distancelearningcentre.com or by post to: Human Resources, distancelearningcentre.com Ltd, 44 Rochdale Road, Darwin House, Todmorden, West Yorkshire, OL14 7LD.

Unless specified otherwise in a particular advertised vacancy, we are happy to receive applications from individuals who are looking to take on a full time workload but may consider those who are looking for part-time and smaller scale workloads. It would be helpful if you included information as to the sort of workload in which you are interested within your statement.
