

CHILD PROTECTION STATEMENT

We recognise at Bilton Grange the right of children to grow up in a caring environment free from neglect, abuse or exploitation. Our Child Protection Policy is designed to provide a high standard of care, to promote and safeguard children's welfare and to acquaint them with the way in which they can bring concerns to the attention of a member of staff. All such concerns will always be taken seriously.

All staff are made aware of the procedure to adopt wherever there is suspicion of any form of child abuse. Child protection procedures and the means of identifying possible abuse form part of the training for all staff involved with child welfare.
