Another key driver for our Construction curriculum is to meet the needs of the Local Enterprise Partnership.

We offer a full programme of support for all staff, including exceptional CPD and development opportunities.

Due to high levels of growth in 16-18 and apprenticeships across the School, we are looking for an experienced and talented Lecturer to join our Construction team.

Over recent years, significant investments have been made in teaching, learning and support for students, which we believe are key to our success.
