

THE ROMSEY SCHOOL BUSINESS STUDIES, ICT & COMPUTING FACULTY

The Romsey School is looking to recruit a Business Studies and ICT Teacher to join our successful Computer Science department within our school.

ICT is a core subject in our school, taught in discrete ICT lessons by subject specialist teachers. A number of different ICT qualifications have been taught at KS4 in recent years and the successful candidate would be expected to advise on future courses to be offered.

In addition, GCSE Business Studies (Edexcel) and GCSE Computer Science (AQA) are also offered as option subjects by the department; both of these subjects are popular and attract multiple groups of pupils.

Each teacher in the faculty teaches in their own ICT suite. The successful candidate will teach all age ranges.
