About Brighton College

The Brighton College Family of Schools

Brighton College was one of the first UK independent schools to take its distinctive approach to education to markets beyond the UK. From the outset of this international development in 2011, when Brighton College Abu Dhabi opened, our driving ambition has been to ensure each new addition to our family of schools is recognisably a Brighton College school. The Brighton College International (BCI) group now has schools in: Abu Dhabi (2011), Al Ain (2013), Bangkok (2016), Dubai (2018), Singapore (2020), London (2023) and Hanoi (2023).

Brighton College UK

Brighton College – awarded the title of ‘School of the Decade’ by the Sunday Times – is consistently recognised as the UK’s leading coeducational independent school. Academic results place Brighton College in the top 10 schools in England. In addition to the ‘School of the Decade’ award in 2020, Brighton College has achieved numerous other recent accolades, such as: Most Forward-Looking School in Britain (The Week); Top School in Britain for STEM Subjects (The Week); Best Sixth Form in Britain (The Week); and Best 125 Private Schools Across the Globe (Carfax Education).

About Brighton College International (BCI)

Brighton College International (BCI) has put in place the structure, resources and expertise to ensure that the Brighton DNA prevails in all Brighton schools. Brighton College's Principal and Group CEO, Richard Cairns, is actively engaged in the work of the international schools, and a team of talented colleagues in BCI provide support across curriculum, admissions, operations, marketing and innovation. The Heads in our family of schools receive support from and regular communication with the BCI team, whilst being given the autonomy to lead their schools and ensure their school works most effectively in its local context. All Brighton College Heads are invited to the annual Brighton College Heads' Conference as part of their professional development and to share good practice in leadership across the group. In addition to the quality assurance visits by Brighton College UK, there are also numerous instances of further collaboration within our family of schools. These include professional development for teachers, pupil collaboration, shared webinars and guest speakers across the group. Alumni from every school are part of the Brighton College Connect network, with several thousand members.

Curiosity, Confidence and Kindness

Every Brighton College school is a happy place, with a warm, inclusive and respectful community. All Brighton schools promote curiosity and a love of learning from Nursery, right through to our leavers at age 18, which is one of the reasons why Brighton College pupils do so well in examinations and go on to many of the world's top universities. Academic interest on its own is not enough though, and results, excellent as they are, do not tell you much about the richness of a Brighton education. Meeting our pupils does; all visitors comment on their confidence and politeness.

This confidence – the right sort of confidence – arises from their being encouraged to participate in lessons, the co-curriculum and also the community beyond the school gate, in which they learn to collaborate and show each other mutual respect and kindness. We always stress the importance of kindness, and encourage pupils to actively seek opportunities to demonstrate their commitment to this vital quality. With each Brighton College International school embracing the educational values, distinctive character and high standards of Brighton College UK, the Brighton DNA is evident throughout the exceptional family of schools.
