

Canterbury School

MISSION STATEMENT

Our mission is to provide a high quality British education to all students irrespective of gender, race or religion, through a curriculum which is stimulating, diverse and promotes high standards, progress and equal opportunity for all. Immersion in an English speaking environment ensures that students develop an excellent command of the English language enabling them to be truly global citizens. We embrace opportunities to celebrate and learn about the Canarian culture reinforcing the Spanish language taught within the school.

To enable us to get the very best from our students we provide a pleasant learning environment in which a stimulating, accessible and appropriate curriculum for the 21st century can be delivered.

The School is aware of the demands placed upon it and the child, by the society in which both are functioning. We believe in the importance of developing the whole child; nurturing and celebrating individual talents. We actively seek to work in partnership with parents and other agencies in order to provide supportive, secure care for all students to enjoy coming to school.
