

# Canterbury School

## AIMS

At Canterbury School we aim to help children develop a life-long love of learning;

- To deliver an education that enables the highest possible individual level of academic progress.
- To have high expectations for all within our community to ensure that we demonstrate the very best standards of conduct, moral purpose and integrity that lead students to become fair, just and active citizens.
- To promote positive attitudes and relationships within the school through clear channels of communication between owners, staff, pupils and parents, valuing the contributions of all within a unified team.
- To develop the student's creative abilities, aesthetic awareness and self confidence through drama, art, music and opportunities to perform on stage.
- To develop students sporting skills, cooperation and team spirit through play, physical education and extra-curricular activities including first rate basketball facilities and coaches.
