- ✓ **Do you want to work in a team that collaborates effectively and works for their students to improve their life chances?**
- ✓ **Do you have experience of successful A-Level or GCSE Geography teaching**
- ✓ **Are you a teacher who wants to make a difference and get the BEST out of your students?**

If the answer to these questions is **yes**, then Mayfield School is the right place for you.

Due to our ongoing expansion, we are looking for a dynamic and inspirational teacher of Geography to join our successful Humanities faculty. The successful candidate will be responsible for teaching Geography across KS3 and KS4 with a view to teach A Level in the future. This post will be suitable for an NQT or experienced teacher looking for a new challenge.

For the last two years the humanities faculty has been rated in the top 20% nationally for progress with value added.

The faculty has 17 staff and incorporates Geography, History and Religious Education. Geography has 4 main specialist teachers with other members teaching at KS3. Teachers across the faculty teach students in year 7 to 11, and there is a consistent cohort of students in the Sixth form studying A- Level Geography. We are keen to support all teachers to develop their pedagogy and abilities so they can teach all ages and abilities, including A-Level Geography.

Humanities is housed in a dedicated suite of 14 classrooms that are all equipped with digital projectors and document cameras.

This a very exciting time for the school, which has had considerable investment in new facilities over the last few years, which is continuing with a new DT block being built and a community leisure centre on site, which will be available for staff members at a subsidised rate.

All teaching staff participate in a comprehensive CPD programme that builds on our aim for all students to 'be the best they can be'. This includes mentoring and coaching, participating in Teacher Learning Communities with other colleagues across the school, faculty specific INSET and collaborative development of resources and teaching approaches.
