

Dear Prospective Applicant

As Chair of Governors, I would like to thank you for your interest in Baysgarth School. The Governors have a strong vision for the school, this journey is ongoing but there are already significant achievements. The school has progressed in academic attainment over the last few years to stand with the best schools regionally and nationally. Baysgarth has always been part of the local community, and this has been rewarded with funding to create a Sports Village with a full size 3G football pitch and a theatre with demountable stage.

The school values and ethos are entwined with this journey and vision; we value our inclusivity and are working hard to lead in this by embarking on an alternative provision project with the Local Authority.

I have lived in Barton and have worked in North Lincolnshire all my life – it's a little-known jewel, low crime, affordable quality housing, good road and rail connections, a rural outlook but still seven miles from the city centre of the eighth largest provincial city in the UK. We have near full employment, a thriving social calendar festooned with large and small events and many great activities. Barton has five parks, four miles of nature reserves and overlooks one of the largest estuaries in England, not to mention the Humber Bridge.

I hope we can welcome you to be part of our exciting vision and future in the Barton area and particularly here at Baysgarth School.

Your faithfully

Jonathan Evison  
Chair of Governors
