Bramhall High School

LA Stockport   DFE 3564038   Produced November 2019   Version 1

What it is

Seven easy-to-use reports that help governors and school leaders to evaluate school performance using the latest 2019 DFE school performance indicators.

What it tells you

What are the strengths and areas for improvement in your school?

How does attainment and pupil progress compare to the national average over the last three years?

How are you performing in different subjects?

Do you have any under-performing groups of pupils?

How might the context of your school affect performance?

How does pupil attendance compare to the national average?

Important information for analysing 2019 results

Reformed GCSEs (based on a 9-1 grade scale) are included from 2017 onwards where applicable. Grade 5 represents a 'strong' pass; grade 4 a 'standard' pass.

To provide trends over time and context for the 2017 and 2018 results, FFT converts pupil results from previous years to the new 9-1 grades. The blue dotted line on trend charts highlights the change.

About the data shown

Actual results

Actual results for your school, using a range of measures such as averages and thresholds.

Pupil progress

The value added progress that your pupils have made from one key stage to the next. FFT compares your actual results to the estimated results based on the progress of similar pupils nationally.

Trends

The dashboard analyses school performance over 3-5 years. Any significant year-on-year improvement is highlighted using an up arrow. Significant declines in performance are highlighted with a down arrow.

Gauges

These display headline indicators and whether actual results and pupils' progress are in line with, or significantly above or below, the national average.

Statistical significance

Green plus signs and red minus signs highlight where either actual results or pupils' progress is significantly above or below the national average.

Strengths & weaknesses

These highlight key pupil groups and subjects where progress is above or below the national average.

Working in partnership with

Premier partner
ASCL Association of School and College Leaders

nga National Governors' Association

Data sources

Generated from FFT Aspire which includes data sourced from the DfE (National Pupil Database) and data calculated by FFT. FFT is accredited as a DfE supplier to receive early access to ASP data. Headline performance indicators will be consistent with the DfE School Performance Tables and ASP.
