## DEPUTY DIRECTOR OF TEACHING SCHOOL: MATHS

**Part Time, Flexible Hours, Permanent** (start date: ASAP)

This is an exciting opportunity for a visionary leader to join our Federation steering Maths curriculum development across our schools and providing curriculum advice and consultancy for our Teaching School, Atlas.

This is a pivotal moment in Atlas' development as it matures into a separate entity within the Federation and as a result of a successful SSIF bid is poised to deliver a comprehensive programme of school improvement across all the London Borough of Lewisham's secondary schools. We are looking for inspirational candidate who will work closely alongside the Director as a founding team member to realise our bold vision for school to school support improvement across the South East region.

You will have the drive and ambition to achieve high expectations and standards, making a real impact on the progress and lives of pupils and staff across multiple schools. You will be an expert in your subject, with a track record of raising attainment and the credibility of being an outstanding practitioner. A strategic and innovative thinker with entrepreneurial flair you can mobilise and engage others for transformational change. With a deep commitment to improving the life chances of young people you will be a proud ambassador for the Federation and Atlas Teaching School.

The Haberdashers' Aske's Federation has a reputation built upon a tradition of high standards and academic excellence. We are committed to unlocking the potential of every pupil at every stage in their education.

**CLOSING DATE:**  
**15 December 2017, 9AM**
