

September 2017

Dear Candidate,

Thank you for your interest in the position of Teacher of Maths at St Thomas the Apostle School & Sixth Form College.

St Thomas the Apostle is a highly successful all boy's Catholic school with a thriving co-educational sixth form based in SE London.

We are incredibly proud to have recently been judged as the **UK Secondary School of the Year 2017**. This accolade, alongside our **Outstanding Ofsted** judgement, demonstrate how unique our school is.

Our students are our greatest asset; they respond positively to our high expectations of them and are incredibly proud to be here. My vision is to ensure that this is an environment where all learners are motivated, supported and guided by the Gospel values, in their efforts to achieve their true potential.

Under this ethos our boys make phenomenal progress during their time in our care, our most recent validated **progress 8 score of 0.92** means we are **11<sup>th</sup> of all schools in the UK** in term of how much progress our students make.

These results are born out of hard work and determination. This work ethic is shared by the boys and the teaching staff.

If becoming a part of our team excites you then I urge you to apply. Visits to our highly regarded school are encouraged - come and see how our outstanding teaching is leading to phenomenal results for our boys.

I look forward to receiving your application and working closely with the successful candidate as we move towards to further embed our successes.

Yours faithfully,

**E. CONNOLLY**  
Headteacher
