Open Letter from our Principal

Dear Candidate

Greengate Lane Academy is in the North of Sheffield in the High Green area of the city. We are a one form entry school and have 230 children on roll, ranging from three to eleven years. We are very proud of our children and their achievements which are based on aspiration and high expectations among all the staff, children and parents who work together to provide the best possible experiences and education.

We are a community-focussed academy that provides our pupils with the best possible start in life, and helps them acquire the skills, knowledge and ambition to be effective members of a changing society. To do this we work hard to develop not just their academic ability, but the skills and outlook required to be successful life-long learners.

We value collaboration and support with and from a number of sources. We work with the trust and other agencies to seek out best practice, based on research and to make it relevant to our school. We value staff development as a major keystone to enable the school to improve and progress. In short, we work hard and value the work we do. We know it makes a difference to our children and the community we serve.

As a prospective member of staff at Greengate Lane we hope that you feel you have something to bring to the school which will enhance our work and in return we will be able to support you in the next stage of your career.

You are welcome to visit the school, ask questions or discuss any aspect of our work.

About Astrea

Astrea is an ambitious, dynamic and young trust with a mission to tackle historic educational disadvantage and raise quality standards across all of our schools. Our academies are based across South Yorkshire and Cambridgeshire, often in areas or at schools which have experienced generationally poor educational opportunities. Our role is to change that. We have grown rapidly over the last four years and now educate around 14,000 students in 27 academies and settings. Whilst our educational outcomes have improved over the last 4 years, they are not yet as strong as we would like them to be, nor as strong as our students and communities deserve. With this in mind, we are entering a new period in our development. We are increasingly clear and specific about our vision for behaviour, curriculum and teaching quality.

Key Characteristics of our academies:

- High aspirations, with a firm emphasis on academic attainment
- A knowledge-rich curriculum that develops a general knowledge of the world not simply for progression for the workplace, but for the love of the acquisition of knowledge
- A calm and purposeful learning environment built on mutual respect and centralised behaviour systems
- Outstanding pastoral care with the provision of specific trust delivered SEMH services where appropriate to the pupil
- Standardised reading and arithmetic catch-up programmes for pupils where this is relevant that are taught by specialists
- Active parental and community involvement
- A broad range of extra-curricular activities including sports, music, performing arts and academic clubs

Objectives for pupils:

- Encourage all children to be confident, hard-working and ambitious, regardless of background
- Transmit a core body of knowledge to all pupils and the ability to think for themselves in order to be aware of the world around them
- To be active and thoughtful participants in their local community
- To be successful in achieving their qualifications at both GCSE and A Level

A knowledge-rich education:

- By a knowledge-rich education we mean a rigorous and extensive, knowledge-based education that draws its material and methods from the best and most important work in both the humanities and the sciences.
- The aim of a core-knowledge education is not primarily to prepare pupils for a job or career, it is more to transform their minds so that they are able to make reasonable and astute judgments and engage fruitfully in conversation and debate – not just about contemporary issues, but also about the universal questions that have been troubling mankind throughout history.
- We want children to leave our schools with the confidence that comes from possessing an essential general knowledge. A knowledge-rich education should not confine itself to the Western canon, but should embrace other cultures and traditions. What that canon includes will be subject to review, but will always be closely connected to the history and the present nature of the society in which we live, including our international connections.
