

Meols Cop High School

'Inclusive Excellence For ALL'

Meols Cop High School

Our Scientists and our Science Department

Dr Manwaring, our Subject Leader until Christmas, left us for a promotion to senior leadership and we are currently looking to appoint the right person to fill this role. An appointment will be made in the very near future.

We are keen to provide great teaching whilst pursuing the most effective ways to reduce workload. As a Research School we do like to trial interesting approaches and collaborate well as a team and we think we are a friendly and welcoming bunch of colleagues to work with!

We do welcome visitors and you may have visited us before or read about our work in the school blogs. If you haven't, then, of course, you will be most welcome to visit us before you make the big decision to apply.

Best wishes and good luck.
