# ACADEMIC MUSIC AT RHS

Music forms an important part of the curriculum for Years 7 – 9 with a strong emphasis on practical music making and technology, as well as listening. Music is also offered at GCSE and A Level and pupils are prepared for entry to music college or university with many recent successes.

- A large and talented team of Visiting Music Teachers
- Over one third of pupils learn a musical instrument or take singing lessons
- All are encouraged to participate in the regular senior and junior lunchtime concerts
- Specialist teaching is available for the particularly gifted and talented
- There is a yearlong series of academic music lectures and masterclasses given by professional musicians – many leaders in their fields – on topics from Elgar's orchestration techniques and Bach's St John Passion to the life of a film composer and the use of computers in new music, all open to the public

## MUSIC TECHNOLOGY

September 2015 saw the opening of a purpose-built three room music technology suite. Complete with a recording studio, an iMac room running Logic Pro X and a control booth with a 24 channel TOFT mixing console. This is a fantastic new resource which many professional recording businesses would drool over.
