

Dear colleague,

Thank you for taking the time to find out about this opportunity to work with Warwickshire County Council. I hope that you will decide to make an application for the post of Strategic Lead for Education Access and Organisation.

This is an exciting time to join us in Warwickshire. We are currently in the process of re-invigorating our Education and Learning Strategy in order to reflect and anticipate the ever changing world of education. We work together with our partners to continue to improve outcomes for learners and to help make Warwickshire the best place in which to be educated. If successful, you would work with us in order to champion the needs of all learners, particularly the most vulnerable. You would challenge where appropriate and help empower Warwickshire's children and young people to be successful and happy citizens, prepared for the responsibilities and opportunities of adult life.

Reporting to the Head of Education and Learning, you would provide strategic leadership and management to develop and deliver the council's strategic role in relation to place planning, home to school transport and admissions. We are looking for a skilled and experienced professional in at least one of these areas. Our successful candidate will also be forward thinking, committed to delivering improvements in public services, and able to work with credibility with a wide range of stakeholders.

If you think this is the position for you and would like a confidential conversation please contact John Edwards on 01926 742612/ johnedwards@warwickshire.gov.uk

We look forward to receiving your application in due course.

Chris Malone
