Bellver International College

INFORMATION PACK FOR APPLICANTS
MATHEMATICS AND FURTHER MATHS

THE SCHOOL:

Bellver International College is a non-denominational, co-educational day school. Founded in 1950, Bellver is the longest established privately owned British school in Spain. The school is currently responsible for the education of around 200 children, from 3 to 18 years-old. We cater for children of both the local community and the international community of Mallorca. Due to our one-form-entry system, the number of students in each form rarely exceeds 20.

In cooperation with parents, we aim to sustain and develop a happy and secure educational environment in which all students are able to fulfill their maximum potential, both as individuals and as members of the changing community.

The purpose-built fully air conditioned premises include 22 classrooms, 2 science laboratories, gymnasium, drama hall, library, computer lab, and art room. The college is situated close to the beach (opposite to the King of Spain's summer palace) in a residential area 3 km from the centre of Palma.

Bellver adopts a combined pragmatic and academic philosophy which encourages every pupil, throughout the ability range, to participate in a wide spectrum of academic studies, varied learning experiences and individual programmes of achievement. The school's ethos is based around 10 key points:

1. High expectations encourage development.
2. Each individual has worth and deserves respect.
3. Order and discipline are fundamental necessities in society.
4. Effective communication promotes understanding and tolerance.
5. People learn in different ways and at varying speeds.
6. Cultural diversity enriches life.
7. High ethical standards are to be encouraged.
8. High self esteem and confidence enhances achievement.
9. Everyone deserves a safe and caring learning environment.
10. Learning is a continuous process throughout life.

English is the language of instruction. All pupils become bilingual in English and Spanish. French, German and Catalan are also offered. The school is an official examination centre for Cambridge & Edexcel. British style tuition prepares pupils for public examinations: Common Entrance (if required), I.G.C.S.E., AS and A level. Spanish teachers provide the requirements for Spain's Ministry of Education. Bellverians can thus apply by direct access to any university or other establishment of further education anywhere in Spain, Europe, America and worldwide. The school has been achieving very good results at I.G.C.S.E. and A level and, as a result, 99% of our 6th Form leavers go to University and are accepted in their first choice university.

The teaching staff are all highly experienced and have appropriate qualifications. Staff turnover is low and the preponderance of teachers who are permanently settled in Mallorca creates a coherent and well-established atmosphere.

Bellver offers 15 subjects at I.G.C.S.E. level , 13 at A/S and A-Level. The school year is from early September to the end of June. The day starts at 8.45 and ends at 16.15. Extra curricular activities take place during the lunch break and after 16.15.

A sports centre is hired for our requirements in sports and athletics.

Recognised by the British Department for Education and authorised by the Spanish Ministry of Education, Bellver is able to admit Spanish pupils as well as foreign nationals. Pupils are accepted after an interview between parents, pupils and the school Directors. From Y4 upwards, an entry exam will be given.

Bellver provides opportunities in a friendly environment for intellectual, social and physical growth. Pupils achieve full personal potential and are prepared for all aspects of life and the challenges of the world.
