

January 2020

Science Technician and Curriculum Demonstrator

Thank you for showing an interest in this post.

Meols Cop High School is a successful 11-16 mixed community school where our emphasis is on a shared and supportive approach to learning and teaching. The school is heavily over-subscribed for September 2019 for the 12th consecutive year.

You will be joining our science team at an exciting time in our journey. The science team is extremely strong and committed, consistently achieving excellent academic results. Every young person has the opportunity to take separate sciences or combined science at GCSE and the science team have an exceptional teaching and learning culture.

With an ever developing and exciting STEM curriculum we would welcome applications from candidates with some innovative views and ideas about the role that a technician can play both in supporting the department from a curriculum perspective but also in sparking the imaginations and aspirations of our students.

In your application please refer to the requirements of the post and give practical examples of your skills and qualities that can be discussed further at interview and verified by your referees. Please do find time to look at our website (www.meolscophighschool.co.uk), performance tables and OFSTED reports to ensure that Meols Cop High School is a school that you feel would be suitable for your professional development. Wherever possible, please quote educational establishments including your current school for references.

Full details and application form are available to download from the school's website. If you would like more information about the post, or the school, please do not hesitate to get in touch.

Completed applications should be sent to recruitment@meolscop.co.uk and marked for the attention of Mrs Paula Nevins, PA to the Leadership Group.

Closing Date: 12noon Monday 27th January 2020.

I look forward to receiving your application.

Yours faithfully,

Mr I Parry
Headteacher
