

Design & Technology at The Bolsover School

The subject area of Design & Technology is an important part of the Technology Faculty and wider curriculum offering at The Bolsover School. We are looking for a dynamic and enthusiastic person to join the Technology Department and, with the Head of Faculty, help drive the department forward. This vacancy offers a fantastic opportunity for somebody wanting to take the first or next step in their teaching career, working within a strong technology team. As part of The Redhill Academy Trust, there is access to a wide range of CPD opportunities, both subject-related and in a wider teaching and learning context.

The technology team is small, with the Head of Department, one other curriculum specialist and a HLTA. The technology faculty as a whole has an excellent mix of staff who can offer a new or established teacher a wealth of experience from which to draw upon. Schemes of work are established at all key stages, however with the upcoming changes to the curriculum, it will offer the successful candidate the opportunity to help enhance and build upon what is currently in place, providing fresh ideas and insight, while contributing to the development of the technology faculty as a whole. Uptake at GCSE is high and this is taught across a three-year Key Stage 4. Design & Technology is situated within the Technology Faculty, with two specialist fully kitted workshops that offer access to interactive a whiteboard, visualizer, data projectors and a range of other ICT and teaching materials including laptops. The faculty benefits from a large workroom and again this offers access to ICT facilities and workspace for lesson preparation and marking. Within the wider technology faculty there are also two specialist food rooms and a textiles workshop.

Mr M Hall, Head of School
