Educational Excellence *for* Life and Leadership

MESSAGE FROM THE HEAD

Thank you for the interest you have shown in Harrow International School Hong Kong.

Choosing the right school in which to develop your career is one of the most important decisions you will have to make, especially when this may involve moving to a new country.

Harrow School in London was established in 1572 and over the past 450 years has grown into one of the world's most renowned schools, educating generations of inspirational world leaders. Harrow Hong Kong opened its doors in 2012 and its objective was to embed elements of philosophy and practice from Harrow School in London to bring together the best of western and eastern traditions. We are a modern, progressive and dynamic school offering an unparalleled British education in the wonderfully unique setting of Hong Kong.

Currently, there are around 250 members of the Common Room, which includes teachers, teaching assistants, educational support staff, matrons and gap tutors. We are proud of our diverse staff body whose experience has been gained both in schools in the UK and internationally. We work together with the shared aim to provide an outstanding education for our pupils.

Whilst our academic results are some of the best across the world, we believe that success is also measured by one's influence on the world and being willing to learn, lead, create, compete and care are a fundamental aspect of a Harrovian education. We place great emphasis on the professional development of our staff and have a bespoke CPD programme whilst offering opportunities for staff to participate in group wide activities as part of the Harrow Academy where colleagues from schools such as Harrow London, Appi, Bangkok, Beijing, Chongqing, Haikou, Nanning, Shanghai, Shenzhen and Zhuhai meet together to share ideas, experiences and expertise.

Staff and their families joining the School follow a comprehensive induction programme in order for them to familiarise themselves with the School and Hong Kong. There are a range of social events organised by the Common Room Committee from trips on a Junk to Friday Feasts!

I do hope that you will consider joining the Harrow Hong Kong team; we look forward to receiving an application from you.

VISION, MISSION AND VALUES

VISION

Educational Excellence *for* Life and Leadership

The School's vision is for pupils at Harrow Hong Kong to not only achieve outstanding academic results, but also develop the motivation, skills and determination to make a positive difference to the world in which they live.

MISSION

The School's mission is to promote Educational Excellence for Life and Leadership through an outstanding education that blends elements of philosophy, practice and tradition from Harrow School with an awareness of the cultural context of Hong Kong and the needs of its international community.

While inextricably linked, the key characteristics are:

- High levels of academic achievement with significant value-added academic performance, leading to top public examination results and entry to prestigious universities across the world.
- A diverse, high quality Leadership in Action programme that inspires a desire for excellence and a breadth of activities. Distinctively, it includes the Super-Curriculum, which is integrated into the School timetable for all pupils, supported by opportunities for further enrichment outside the timetable.
- High quality pastoral care that, with a strong boarding ethos and House system at its heart, promotes an inclusive School community in which its members feel happy, secure and valued, and that places emphasis on the personal formation of the character of each pupil. Supporting this is a bespoke personal, social and health education programme called Facing Challenges that encourages the development of resilience and a positive, solution-focused approach to any challenge.

Leadership, of course, is a very Harrovian quality and some of the great Old Harrovians, such as Winston Churchill, Nehru and King Hussein of Jordan are renowned for providing profound leadership at significant points in modern history. We aim to equip and challenge Harrow Hong Kong pupils to use their knowledge, skills and talents to make life better for other people in their community and the wider world through developing six identified key Leadership Attributes:

- Contributing positively to the community
- Applying knowledge with compassion
- Solving problems collaboratively
- Solving problems creatively
- Making fair and just choices
- Facing challenges with determination
- With input from teachers, pupils and parents, a social vision statement was created to outline the expectations of how members of the School community are expected to treat

each other.

“A caring, respectful community in which everybody thrives.”

This Social Vision statement goes to the heart of the Leadership attributes and the modelling of them in the Harrow Hong Kong community. It also provides a framework for teachers, pupils and parents in their interactions with each other.

Harrow Hong Kong aims to embed opportunities for each pupil to acquire the Leadership attributes in all aspects of School life, including the types of learning experiences that teachers prepare for pupils in the classroom, the academic curriculum itself, the Leadership in Action programme, and opportunities to take on leadership roles both within and outside the School community.

VALUES

In any organisation – be it a school, a company, or even a family – strong and clearly expressed values create identity, focus, unity and drive, answering the questions ‘what do we belong to?’, ‘what’s important to us?’, ‘what holds us together?’ and ‘why do our collective efforts matter?’ At Harrow, our Values help us to make decisions from day-to-day that mean we behave and perform better, inspiring us to try harder as individuals, so that collectively we thrive.

- **Courage** encourages us to innovate and take risks, inspiring change for the better. It means challenging adversity and complacency, making the most of opportunities, putting fear of failure to one side and staying the course, even when it is difficult.
- **Honour** is about doing the right thing, having the highest standards and leading by example. It involves taking responsibility and, ultimately, is what makes us worthy of the trust of others.
- **Humility** asks us to recognise that one’s self is a work in progress and that struggling with one’s weaknesses is essential to growth. Humility increases our awareness that talent and achievement alone, however impressive, are not sufficient to succeed as a human being – and that none of us is at the centre of the universe.
- **Fellowship** means building binding, constructive relationships that help us all to make a positive contribution. This is resonant with our belief that the strongest relationships of all are based on faith, hope and love.

Our four Values link closely to our Christian foundation and the principles of ‘Godliness and good learning’ established by our founder, John Lyon. In our context, their meanings are replete with much more than their dictionary definitions, just as the word ‘Harrow’ means more than just a school. Outwardly, they give a sense of the distinctive quality of Harrow School, and express what we think is important. A school that values courage, honour, humility and fellowship is a school at its best: one deserving of the name ‘Harrow’ and one to which we aspire.

THE CURRICULUM

At Harrow Hong Kong, we offer a British Curriculum with our pupils taking GCSE examinations in Year 11 and A level examinations in Year 13. The philosophy of our curriculum is to develop essential skills as well as to acquire subject knowledge. We want our pupils to finish their education at Harrow with excellent results and, crucially, excellent personal attributes.

During the Prep School (Years 6-8) and Year 9, pupils are exposed to a wide variety of subjects so that they develop a breadth of knowledge and acquire different skills. Our core curriculum consists of:

- Science
- Maths
- English
- Humanities (PRS, History, Geography)
- The Arts (Art, Drama, Music)
- Languages (Chinese, French, Spanish)
- Physical Education
- Computer Science

From Year 10, our pupils begin their GCSE studies taking four optional subjects plus the core curriculum of English Literature, English Language, Maths and Triple Science. These courses culminate with public examinations at the end of Year 11.

From Year 12, pupils begin their A level studies with the option of studying any subject they have already completed GCSE level as well as the additional options of Politics, Psychology and Economics. All our pupils also complete the Extended Project Qualification.

In addition, we have an excellent Language and Learning department and Individual Needs department who support our learners across the school. They are dedicated to ensuring that all our pupils achieve their very best.

Lessons are creative and inspiring and teachers have the highest expectations of all pupils. We are proud of the excellence we have in our classrooms and we actively promote the sharing of good practice between departments and across the school.

HARROW HORIZONS

Harrow Hong Kong is committed to providing a broad range of opportunities for our pupils to experience outside of the formal classroom. We firmly believe in an all-rounded education where academic pursuits are supported by Super Curriculum and Co-Curricular opportunities.

Our Harrow Horizons Programme immerses pupils in a vibrant menu of opportunities and challenges through sport, the creative and performing arts, academic extension, charity and service, STEAM, university preparation, enterprise, expeditions, Leadership in Action Week and our very popular Speakers' Forum. The programme encourages pupils to step out of their comfort zone whilst undertaking new experiences and challenges to help them develop our Leadership Attributes which are at the heart of our DNA as a school.

Our Super Curriculum Activities (SCA) are embedded into our School timetable and pupils enjoy partaking in their SCAs two periods a week. Our Co-Curricular Activities (CCA) are the enrichment activities which take place either before or after School or during lunchtime, and are therefore outside of the School timetable. Our staff are passionate about leading their SCAs and CCAs, giving them a chance to:

- teach beyond the restrictions of the curriculum, offering their pupils academic stretch, challenge and extension in their specialism
- lead an SCA which they are passionate about which may be outside of their teaching specialism
- coach and lead one of our sports teams
- lead one of our Charity and Service activities working with the pupils to give back to society.

Staff are proactive at entering their SCA and CCA pupils into competitions, both locally and globally and organising trips and visits to help support this extended learning opportunity.

Our staff enjoy participating in our extensive expeditions programme throughout the year and play an important part in our Leadership in Action week which takes place annually, in which the whole school community is involved.

Charity and Service opportunities are an important part of what we offer here at Harrow Hong Kong; our staff actively work with their pupils throughout the year to fundraise and build relationships with our School Charities through the House system and various SCAs and CCAs ensuring our pupils understand the importance of giving back.

PASTORAL CARE

At all ages in the School, there is a strong emphasis on the quality of relationships and community life, and on the personal formation of character.

The building blocks of the School community are the Prep and Senior Houses in the Upper School. This sense of community is promoted in the Lower School classes and there is a House system in the Pre-Prep School to help prepare pupils for their move to the Prep School in Year 6.

In the Lower School, the focus of pastoral care is the Class Teacher. However, from Y6 when pupils enter the Upper School, pastoral care is centred on the Houses. All boarders and day pupils are members of a House.

Harrow Hong Kong's formal taught pastoral education programme is known as 'Facing Challenges' and most teachers are involved in its delivery throughout the School. The programme aims to develop resilient individuals who embody the School's leadership attributes and adopt a solution-focused approach to any potential challenge: health, social, economic or academic.

BOARDING AND HOUSES

Harrow Hong Kong was the first, and is the largest British international school in Hong Kong which provides the opportunity of a boarding education. Boarding, the heart of life at Harrow School in London, is also integral to life at Harrow Hong Kong.

In the Lower School, the Class Teacher is responsible for all aspects of each child's educational and wellbeing; however, in the Upper School, it is the House Master or House Mistress who has the primary role in the pastoral care of pupils. Resident in each House is a House Master or House Mistress, and an Assistant House Master or House Mistress, and all Upper School teachers are Tutors in one of the Houses. The House Pastoral teams play a major role in supporting the boarders and day pupils and deliver our own bespoke PSHE programme, known as 'Facing Challenges'.

The quality of relationships and community life, and the personal formation of character are fundamental to life at Harrow Hong Kong. The Houses provide rich opportunities for interacting with pupils from a wide range of backgrounds and for developing more profound relationships with teachers and their peers.

The real strength of a House is the vertical integration of different year groups, which effectively creates a large family unit, allowing responsibilities for older pupils to care for and support younger pupils. The result is the creation of a close-knit, family atmosphere in which boarders feel that it is their home during term time, and in which all pupils feel happy, secure and valued. In the numerous competitions between the Houses, their community pride finds expression via a healthy competitive spirit.

There is a strong community of over 300 weekly boarders in the Upper School who board from Sunday to Friday evening. Boarders benefit from a thriving programme of activities and support along with the chance to experience living with others, developing independence, having fun and honing essential skills for life beyond school.

WHAT OUR GAP TUTORS SAY

- Being a Gap Tutor is all about variety; from day to day and period to period your timetable will push you out of your comfort zone and make you try things you might not have even considered previously. You pick up so many new skills and abilities that you can then confidently apply to all sorts of scenarios - all whilst being surrounded by great people and an amazing city!
- Since living in the boarding house, I have a home away from home. The girls and my House Pastoral Team are another family who I know will always raise my spirits and keep me happy.
- Being here for a year offers you the ability to fully immerse yourself into life in Hong Kong. Joining a local sports club is a fabulous way of making friends and exploring more of Hong Kong.
- Taking a Gap Year has taught me how to cook, wash, and be independent. I would encourage everyone to apply for this job as the experiences are those you can only get once in a lifetime and everyone else who applies has a likeminded outgoing attitude.
- There is nowhere quite like Hong Kong. One minute you're in the hustle and bustle of Central and before you know it you can be on the tranquil beaches of Sai Kung.
