***Be extraordinary***

# Be you. Be anything. Be Brookes.

Brookes Cambridge provides students with the tools that give them confidence and a mindset to take on new challenges.

We encourage them to be open-minded, aware of cultural differences, and innovative about how they approach world issues.

It is our mission to awaken the potential in every student.

We provide a creative environment that ignites their imagination, builds character and broadens horizons. Through this approach, we can prepare them to be the global citizens of the future.

We invite you to join our family and let your children realise their undoubted promise and prepare them for life-long success.

## ***Be ambitious***

We have embarked on an ambitious redevelopment plan that will see our campus truly deliver 21st century schooling. By Winter 2016 we shall unveil our £2 million, state-of-the-art boarding and classroom facility that will boast modern, highly equipped art, science and computing labs as well as five-star lodging for full-time, weekly, and flexi-boarders.

By 2020, we will be a true "through school", that will offer the complete learning experience from three to 18 years old. Children will be able to study for the iGCSE before embarking on the International Baccalaureate, the globally recognized qualification that better prepares students for life beyond the school gates.

## ***Be creative***

Through our unique ethos, which starts in our Montessori-accredited nursery, we inspire a love of learning through creativity and imagination. The combination of small class sizes and innovative teachers provides the catalyst for students to flourish and unlock their natural talents.

During lessons we explore links between different disciplines to develop a deeper understanding of the subject matter. These connections are developed and enhanced through bespoke learning programmes that break down the artificial barriers that can exist between individual subjects.

Each programme is multidimensional; not only do we use a kaleidoscope of subjects to bring learning to life, we venture beyond the classroom, be it excursions, performances, leading assemblies or meeting keynote speakers.

## ***Be global***

Internationalism is part of our DNA and informs all subjects across our curriculum. It's a principle that provides children with a broader understanding of today's world. This global awareness is nurtured not only through our teaching but also our family of schools that span the continents.

The Brookes family currently boasts five schools located in some of the top-ranked countries for education and opportunity, which are Canada, South Korea, United Kingdom and the United States of America.

Having a truly international family of schools provides an extraordinary opportunity to share experiences from across continents and cultures.

## ***Be family***

Our new boarding facility, Gryphon House, has been designed and built to exceptional standards with all rooms boasting a full complement of modern furnishings and fittings as well as separate en-suite shower and toilet facilities.

House parents John and Gill White, who have more than 30 years boarding experience, will provide boarders with a "home from home" experience, support and inclusiveness. Quiet places for study along with academic support give residential students room to thrive, while weekend excursions encourage exploration of culture and community life.

**"THERE IS A VIBRANCY IN OUR LESSONS WHICH I INVITE YOU TO COME AND SEE AND EXPERIENCE FOR YOURSELVES; OUR UNIQUE CURRICULUM IN THIS EXTRAORDINARY SCHOOL."**

Head of School Carole Beedham
