

Benefits of Working at Carnforth High School

Location

Carnforth High School is a small, warm community school, located in a beautiful part of the world, on the border of the Lake District. The school is located two minutes from junction 35 on the M6, this means we have staff who commute to the school from the Lake District and as far south as Warrington due to ease of which they can access the school.

School Facilities

The majority of staff have their own classroom at Carnforth High School which allows them to put their own stamp on the room. All classrooms have a desktop PC and interactive whiteboard. We also offer remote access to the school network.

As a member of staff at Carnforth High School, you have access to several outstanding school facilities. We have a fully equipped gym and sports hall which staff have free access to before and after school.

Our school canteen provides an excellent menu each day and many staff take advantage of the food available and new staff often compliment the school on the quality of food.

Supporting Staff

At Carnforth High School, we understand how important developing and supporting our staff is to the success of the school and the students.

We have a full calendar of CPD activities, both whole school and within departments, to help staff at all levels of the teaching profession to develop their practice and support others. This is also supplemented by networking meetings with other colleagues from the Bay Learning Trust.

Carnforth High School encourages staff to undertake NPG qualifications to help further their careers.

At Carnforth High school, we recognise that the health and well-being of staff will also help the whole school to be more successful. All staff are able to access a range of well-being and medical support through our SAS subscription. These services include:

- Physiotherapy Service
- Online GP Service
- 24 Hour GP Helpline
- Relationship Counselling
- Stress Counselling
- Nurse Support Service

What our new staff say?

"Staff at Carnforth High are friendly, positive, motivated and there is a real team spirit."

R Walker, joined September 2020

"I feel staff are given lots of opportunities and the school is really forward thinking."

H Porte, joined September 2021
