GCSE and iGCSE Results

	2018	2017	2016	2015	2014	2013
9-7 (A*-A)	26%	31%	23%	21%	28%	18%
9-6 (A*-B)	47%	62%	53%	58%	56%	49%
9-4 (A*-C)	89%	91%	91%	88%	86%	76%
9-4 (A*-C) 5 or more	86%	91%	93%	95%	87%	89%
9-1 (A*-G) (Pass)	100%	100%	100%	100%	100%	100%

"I am very happy with this set of results following the reformed, tougher, GCSE examinations. I am particularly pleased with the number of top 9 and 8 grades, the majority in mathematics, English and the sciences, including three students achieving two 9s in combined science. Our preliminary average value-added scores again appear very positive with the average result meaning that there was an improvement from baseline data of around a grade. English Literature and mathematics should be highlighted as performing particularly well."

Sixth Form Results

	2018	2017	2016	2015	2014	2013
9-7 (A*-A)	26%	31%	23%	21%	28%	18%
9-6 (A*-B)	47%	62%	53%	58%	56%	49%
9-4 (A*-C)	89%	91%	91%	88%	86%	76%
9-4 (A*-C) 5 or more	86%	91%	93%	95%	87%	89%
9-1 (A*-G) (Pass)	100%	100%	100%	100%	100%	100%

Sixth Form results include the grades, or equivalent, of A Levels, BTECs, Tech Level and EPQ qualifications.

"The average number of UCAS points achieved by the class of 2018, earned through the range of sixth form qualifications that we now offer, is 129, equivalent to ABB. An impressive 42% of our pupils gained A*-A grades or equivalent, and 83% A*-C, with a pass rate of 99.6%. I am impressed by the variety of degree subjects and university destinations our leavers are going on to, with a small number choosing to pursue degree apprenticeships or go straight into employment. My thanks to the interminable commitment of my colleagues whose hard work and care does not go unrecognised and congratulations to those departments that secured 100% A*-C grades at A Level, including Art, Computer Science, DT, Philosophy, Physical Education and Photography. Economics, English Literature and Maths also achieved strong A*-C results."

NB: 2018 reflects the results from the A Level and GCSE government reforms.
