

Jewell Academy
an Aspirations Academy

VISION AND VALUES

Our vision is for an authentic education for the 21st century for children from the age of 4 to 11. We want all students to achieve high levels of success in a broad range of examinations at a variety of ages, whilst at the same time equipping them with the knowledge and skills required to play an active and successful role in today's highly competitive, fast-changing world.

SELF-WORTH

Children at Jewell Academy develop high levels of Self-Worth when people believe in them. Our staff dedicate time to forging excellent relationships with each child, recognising their uniqueness and striving to support them to build their resilience, confidence and perseverance. With this skill set, each child can go on to realise their full potential academically and personally, becoming great citizens, contributing actively and effectively to their community and wider world.

ENGAGEMENT

Each child at Jewell Academy is supported and challenged appropriately to ensure high levels of engagement in all areas of learning. Relevant opportunities are presented to the children with links to real life experiences so they can make connections from previous learning, building on existing skills and understand how what they learn today will help them in their futures.

PURPOSE

At Jewell Academy, children are encouraged to have dreams and goals and are motivated to consider how they might achieve them. Each child and their contributions are valued. They are encouraged to take responsibility for their learning, to explore and question the world around them in order to make sense of it and understand the role education has in their lives, inspiring them to create a brighter future for themselves
