Forest benefits from an exceptional location on the edge of Epping Forest. This enviable advantage, however, does present significant parking and traffic management challenges.

The Forest School is sited within the London Borough of Waltham Forest, a borough with a strong and commendable commitment to improving air quality throughout the borough.

This includes measures aimed at reducing congestion and car use, both of which cause difficulties around the School at busy drop-off and pick-up times, and we work with the Council to develop our travel plan.

As a School with over 1,430 children, it would be a dereliction of our duty of care not to support measures to improve the air quality around the site – not least because of the effect pollutants have on a child's lung development and which can lead to significant respiratory and cardiovascular conditions.
