El Alsson

British & American
International School
NEWGIZA

A wide-angle photograph of a large, modern school building with a courtyard. The building has multiple stories with a mix of grey stone and red brick facades. Large windows are visible on several floors. In the foreground, a large group of students in blue and yellow uniforms are gathered in the courtyard, some standing in lines and others moving around. The sky is clear and blue.

DEVELOPING SUCCESSFUL 21ST CENTURY CITIZENS

www.alsson.com

Established in 1982.

14 acre state-of-the-art campus.

2300 students.

Over 350 teachers and administrators.

El Alsson New Giza, Cairo is a private international school in Egypt offering the choice between British and American education. Having moved to its newly established campus at NEWGIZA in 2017, it now occupies a 14 acre site. There are two school buildings: one British Primary and Secondary and another American Elementary, Middle and High School. There is a superbly fitted Performing Arts building of theater drama studio and music rooms and a Sports Hall featuring two heated indoor pools, multi sports varsity-sized sports Hall, a fitness gym and dance studio.

The school has a reputation as one of the best international schools in Cairo. This is reflected in the quality of our curriculum, extra-curricular activities, sports, music and artistic achievements and of course, outstanding examination results. Our school prides itself on being a family oriented organization and having a mixture of well-qualified Egyptian and ex-patriate teachers (many of whom have worked with us for many years) all of whom are experienced professionals with a proven track record of academic success. The success of the school is largely as a result of it being a family-run business and the extraordinary loyalty of our alumni who grow up, and then bring their children back to the school!

El Alsson British International School

(FS1-Yr13) follows the IPC program in the Primary years which has proved to be very successful raising standards and confidence amongst the children. In the Senior School, children take IGCSE/GCSE in Years 10 and 11 and AS and A-level exams in Years 12 and 13. The examination results in recent years have been excellent, enabling students to enter prestigious universities in Egypt with some 60% going abroad.

El Alsson offers a wide range of activities to enhance the broader curriculum: local and overseas trips, sports, music, performances, work experience, leadership programmes, charity projects, MUN and many other clubs.

El Alsson American International School

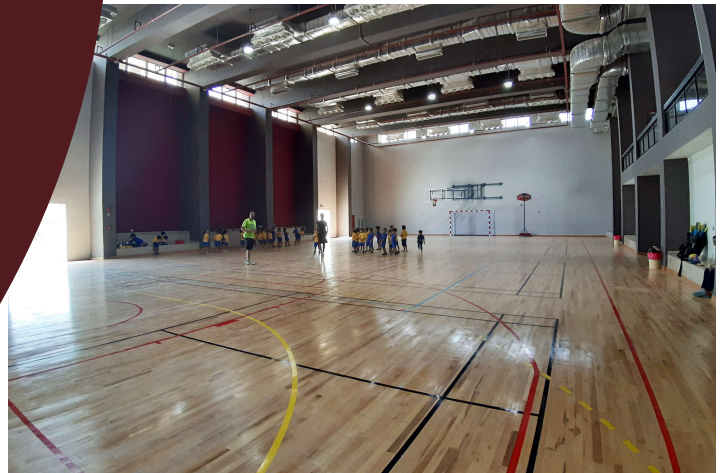

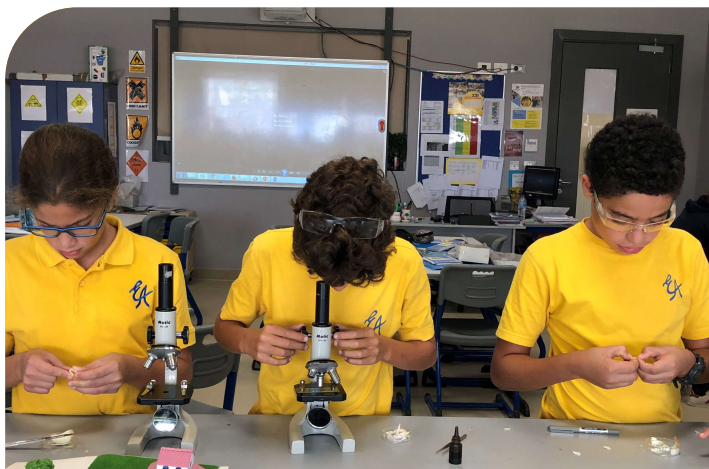

(Pre. S – G12) offers the American curriculum for the Elementary years and a curriculum which more than meets the requirements of NCA CASI (The North Central Association Commission on Accreditation and School Improvement). The curriculum and supporting programs are balanced and cater to the academic, social and emotional needs of children. Our High School program also offers students the choice of many electives and Advanced Placement and AP Diploma courses, enabling students to enter prestigious universities in Egypt and abroad.

El Alsson offers a wide range of activities to enhance the broader curriculum: local and overseas trips, sports, music, performances, work experience, leadership programmes, charity projects, MUN and many other clubs.
