

Our Unique Approach to Education

Vision

Within 10 years, we will be a nationally- and internationally-respected school of about 330 students aged 3 to 18, of whom half are Slovene. We aim for continuous improvement in the educational outcomes of our students.

Mission

The British International School of Ljubljana provides a high quality international education in English, balancing tradition and innovation. Our passion is creating a positive, challenging and nurturing learning environment in which everyone is valued as individuals, empowering them to be versatile, motivated and caring people.

Values

The school takes pride in its happy, purposeful and positive atmosphere, in which all members of the community are valued and the teachers get to know every young person in their care to optimise their learning and development.

At BISL, we emphasise learning to learn; the development of skills and the application of knowledge; and the holistic education of each individual. We encourage our students to aim high, to be creative in their outlook, to take calculated risks and to learn from their mistakes.

We recognise the vital link between parents, school and community in contributing to the education of the next generation and work hard to foster this collaboration. Everyone in the BISL community can expect to be treated honestly, fairly and with respect by all. We acknowledge the importance of our students' nationality as part of their identity and celebrate our diversity and internationalism.
