

Our Vision and Values

Our vision

Our vision is to ensure that our students gain the knowledge and experience they need, and the strength of character to become changemakers in the world, living well and improving the lives of others. We achieve this by:

- **Building character** through experiences that help students become confident and ambitious as well as good citizens.
- **Delivering expert teaching** in a wide range of subject specialisms.
- **Developing student agency** by enabling young people to take ownership of their education and supporting them to make their own choices.

- **Fostering a love of learning** in which students feel comfortable to think deeply and critically.
- **Providing the care and support** that our students need to enjoy being part of a nurturing community.
- **Signposting destinations** that take students beyond examination results into a wide world of possibilities.
- **Enriching our curriculum** alongside our partners in London South Bank University Group.

Our values

Everything we do is based on our core values of:

- Social justice
- Kindness and empathy
- Endeavour
- Community

Our motto

‘Create a better future’

Being influenced by our values empowers us to make an impact in our own lives and in the life of the community.

What makes us different?

Our unique Pathways programme takes students on an inspirational journey beyond the National Curriculum, opening their eyes through new experiences, dynamic projects, and positive engagement with organisations from a wide range of sectors. This enhances students’ employability skills, preparing them for high value academic, professional, and technical careers.

Our offer includes an after school and holiday programme, bespoke mentoring and tutoring, extensive advice and guidance, a guest speaker programme, and interesting workplace visits. High-spec facilities and equipment are provided including a Chromebook of their own during students’ time in school.
