

# Mission

Our community mission is to aid our students to make positive contributions for social change and to create a better and more equitable world, by developing the students social understanding and awareness to help them become conscientious global citizens.

Our board of directors' mission is to provide resources for learning and to maintain a stimulating educational atmosphere for students. We aim to include parents and guardians, our most important partners, in the education process and to employ the best resources and experts to attain our vision.

The KGIS educational mission is to ensure that every child reaches their full academic and personal potential. This is achieved through developing socially aware and ambitious lifelong independent learners.
