

School Vision 2022 - 2023

SISD is unique in so many ways; we are an all-through IB school, a day and boarding school, a school that combines the best of Swiss, French, German, English and international standards and a school with unbeatable facilities that nurture excellence and engagement. SISD offers a range of pathways including French, German, English and STEAM, and in Secondary - Swiss Matura, IB MYP, IB DP and IB CP.

Like other schools, we are on a journey of improvement, with our values – Bilingualism, Excellence, Sustainability and Together at the core.

At all levels, staff are encouraged to be leaders – to take ownership of their roles, to seek ways to measure and develop their impact, to contribute beyond their immediate positions and to support in taking the school forward.

Our aim is to develop and increase opportunities for enrichment, support all aspects of student achievement, and nurture a culture where all members can succeed and thrive.

The focus of the current academic year, my first year as Principal at SISD, is on 3 key areas:

1. Learning – challenge and support in a fully inclusive environment, creating memorable learning opportunities underpinned by effective learning approaches and student agency.
2. Student Achievement – supporting every student to be their BEST, using data effectively to identify next steps, nurturing meta-learning, developing enrichment opportunities in sport, the arts, student leadership, sustainability and philanthropy.
3. Community Development – engaging all stakeholders, prioritizing well-being, identifying professional development opportunities, including parents as partners and distributing leadership.
