

Headteacher's Welcome

I would like to extend a warm welcome to SIH and invite you to explore what makes our school so special in the eyes of our learning community. As we recently celebrated our fifth birthday, it is amazing to see how much we have grown and how much has been achieved for such a young school.

We were awarded the International School Quality Mark at Silver level in June 2019, an achievement we are all very proud of and makes us unique in the city of Hat Yai. It is very unusual for a school to achieve Silver level at its first attempt, and this should tell you how determined and focused we are as a community. While every standard of the school was graded at least 'Good', our relationships with our community and students' personal development were 'Outstanding'. This should tell you something about the culture of our school. Our best advertisements are not this website or our billboards, but our current parents, students and teachers, which is why SIH attracts interest from all over the region.

However, it is not enough to be the only accredited school in Hat Yai, a Cambridge International and IPC centre, we are always trying to improve. We are blessed with a spacious, green and well-equipped campus that encourages play, leisure and curiosity, and classrooms that inspire great learning.

Please don't take our word for it, pay us a visit and talk to our family.

Mr. Martin Leigh

PGCE, NPQH, MA (Education Leadership and Management)
