

TURNER'S COMMITMENT

TO OUR PUPILS, FAMILIES AND SCHOOLS

Transforming children's futures.

Working effectively in socially and economically challenging areas and having an unflinching focus on improving outcomes for the pupils we serve.

Empowering families.

Working transparently and closely with families as joint partners, providing support so that our children are successful.

Strengthening communities.

Expecting our academies to contribute strongly to their communities and society in general. Creating young citizens who can increasingly change society, including their community, for the better.
