Albina Nasyrova

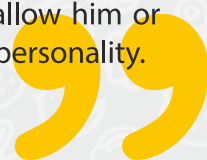

CEO

The Bala-City kindergarten network is the first in Tatarstan to begin implementing the concept of multilingual preschool education. In all four branches, children learn Tatar, English, Chinese (included in the standard program) and Spanish (additional).

A unique feature of the Bala-City International Multilingual kindergarten model is the language environment, which is created by native-speaking teachers. Bala-City is staffed by International experts, excellent teachers, and qualified speech therapists and psychologists. Many of them are professionally recognised and decorated in their field.

Our common goal is to help unleash creative ability in a child, to allow self-realization in the future, to allow him or her to form a fully developed personality.

Partners

Bala City maintains partnerships with Kazan Federal University, Beijing University of International Relations and the Spanish Ministry of Education. Together with the Institute of Philology and Intercultural Communication, the KFU is implementing a masters program for the preparation of highly qualified specialists in the field of early development. When implementing creative projects, the school interacts with the Kamal Theatre and the Museum of Fine Arts of the Republic of Tatarstan.

Camps at Bala City

We believe that during the holidays it is possible and necessary to obtain new knowledge, to deepen and expand it, to develop our practical abilities to study topics and areas that are not included in the school curriculum. The camp atmosphere, its spirit, traditions and the opportunity for self-realization are very important for the modern child.

The themes of our summer camps are:

- 🌿 English language with native teachers
- 🌿 Mathematics
- 🌿 Natural sciences
- 🌿 Robotics

"Bala-City" – City of Children.
An international team of inspired Bala-City professionals unlocks the potential and talents of each child. Due to the complex multilingual approaches, new

educational technologies and the atmosphere of care and cooperation, we form an intellectual and creative personality, laying the foundation for a happy and successful future.

Mission

Our values

Focus on people:
our children and teachers are the most important stakeholders in Bala-City.

СТАНДАРТ

Multilingual international groups

In our International groups, we have enriched the core program and added the following disciplines:

English, Chinese, Spanish (including lessons with native teachers)

Programs that develop aesthetic perception and erudition: choreography, acting, art (from 5 years old)

Sensory-motor development (up to 4 years)

Improving the native language and pushing the boundaries, learning foreign languages

We are keen to celebrate
and learn about the
culture of our native
land, expanding the
skills of mastering
Russian and Tatar
languages, as well as
broadening our
International horizons in
our Foreign languages.

*At our Dubrava campus
we also have a group in which communication and classes
with children take place in the Tatar language.*

- ★ Dance lessons in music lessons
- ★ Physical Education
- ★ Yoga

Additional classes:

- ★ Mind games
- ★ Cheerleading
- ★ Football
- ★ Chess
- ★ Fencing

Environmental education

We know the world around us, plant trees and flowers, and we learn to take care of them.

Bala-City is a participant in the international eco-program "Eco-Schools/ Green Flag".

A photograph of four young children sitting around a table, eating from plates. The background is a light-colored wall with a pattern of small, stylized icons including rainbows, bees, and flowers. The photo is framed by a dashed orange border.

We consider safety and comfort

We consider safety and comfort one of the key aspects of the establishment of our facilities. We offer a comfortable, safe and hypoallergenic environment; we pay special attention to this at all stages of life: from construction, to toys.

A circular inset photo showing children playing in a room with a blue tent and various toys.A circular inset photo showing children playing with toys on a green mat.

We conduct regular classes in physical culture, choreography and children's yoga.

We provide children with outside play in our fully equipped playgrounds. We provide healthy, balanced meals which are cooked on site daily.

A circular inset photo showing children playing on a green mat with a red toy horse and other toys.A large photo of a playroom with a green tent, a red toy horse, and other toys on a green mat. The photo is framed by a dashed green border.

Laying the foundation for a healthy lifestyle

We create for children a comfortable environment in which there are all possibilities for intellectual and creative development. Experienced speech therapists and psychologists work in Bala-City to help support all staff in unlocking the potential of each child.

Protecting the boundaries of emotional comfort of children

The program includes a weekly lesson with our psychologist; individual counselling is available if necessary.
