

# CIS Education Group

# About us

CIS Education Group is an international educational network accredited by Cambridge Assessment International Education (branch of University of Cambridge, Great Britain).

The School prepares graduates with Cambridge IGCSE and Cambridge International diplomas of AS & A levels which are recognized by universities of EU, Great Britain, Australia, Canada and other countries (more than 140 universities).

CIS also offers the opportunity to study National curriculum.

# CIS Mission and Vision

**Our mission** is to foster positive social impact through holistic education.

**Our vision** is to develop every member of our community by shaping an inspiring learning environment

# CIS Values

- **Responsible.** We act mindfully and respectfully towards everyone and everything in our environment. We take personal responsibility and accountability for our actions.
- **Globally-minded.** We celebrate the individual differences and beliefs of all people. We actively engage in the world and the communities in which we live.
- **Life-long learners.** We continue to learn throughout life, constantly renewing our skills and abilities.
- **Collaborative.** We interact and support with each other to achieve the best possible result. We embrace dialogue encouraging the free and respectful exchange of opinions and ideas. We are approachable, honest and act with integrity at all times.
- **People centered.** We are a community of learners who believe everyone is talented. This is our starting point. We believe in people and value their viewpoints.

# We offer quality education and development

- Classical British education
- Highly qualified educators from the UK, Australia, Canada and the USA
- The Global Thinking Development Program Global Perspectives from Cambridge University (Great Britain), focused on the formation of “skills of the future” (critical thinking, communication and analytical skills, teamwork, project activities)

# Quality education and development

- Values-Based Education Program, which teaches children universal values throughout the educational process and helps them to become “citizens of the world”
- Access to the National educational program and the possibility of simultaneously obtaining 2 diplomas

# Quality education and development

- Large selection of paid and free extra clubs and activities (at school)
- Modern buildings with full infrastructure and facilities for research and creativity
- Support for admission to foreign universities (assistance with the selection, execution and submission of documents)

# The Cambridge International Education System

## Cambridge Pathway

A clear path for educational success from age 5 to 19

### Cambridge Primary

5 to 11 years old\*

- English (1st and 2nd language)
- Mathematics
- Science
- ICT
- Cambridge Global Perspectives

### Cambridge Lower Secondary

11 to 14 years old\*

- English (1st and 2nd language)
- Mathematics
- Science
- ICT
- Cambridge Global Perspectives

### Cambridge Upper Secondary

14 to 16 years old\*

- A wide choice of subjects at:
- Cambridge IGCSE™ (70+ subjects)
  - Cambridge O Level (40+ subjects)
- Cambridge ICE Certificate

### Cambridge Advanced

16 to 19 years old\*

- A wide choice of subjects at:
- Cambridge International AS & A Level (55+ subjects)
  - Cambridge Pre-U (20+ subjects)
- Cambridge AICE Diploma  
Cambridge IPQ

Cambridge Professional Development for teachers and school leaders

*\*Age ranges are for guidance only*

Learn • Discover • Achieve

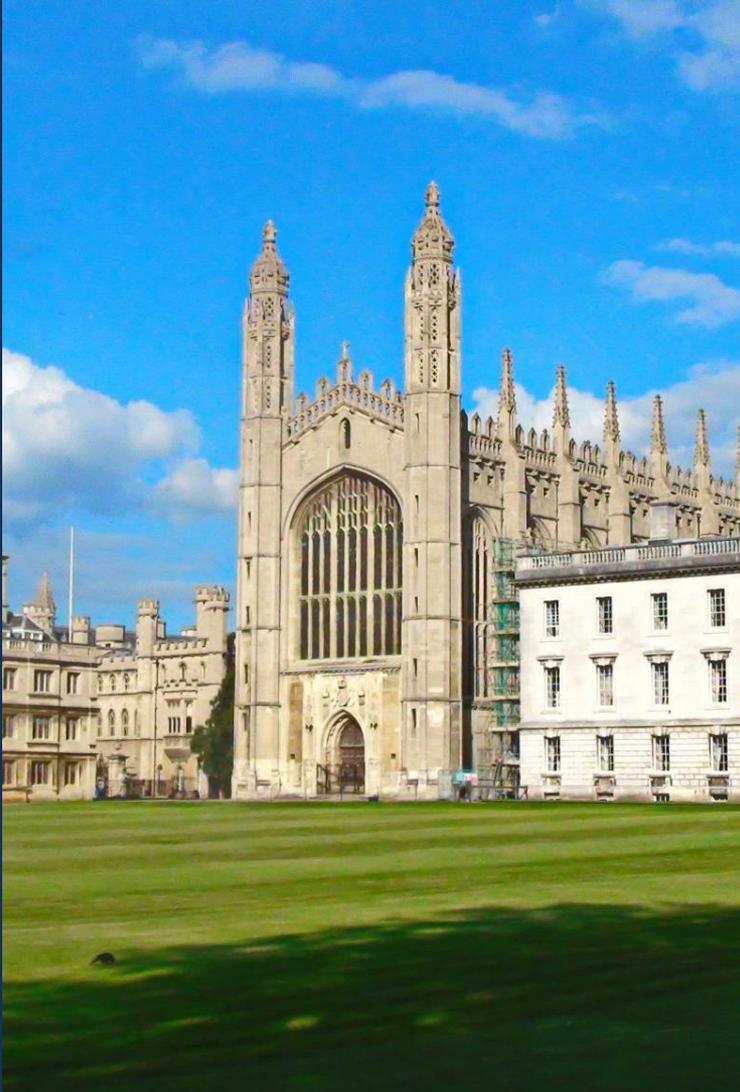

# Curriculum

We offer a full education for children between the ages of 3 and 18 years old.

From the age of 5, all our students follow the Cambridge Pathway, a British curriculum developed by Cambridge Assessment International Education (CAIE, part of the University of Cambridge) that offer them the chance to acquire the knowledge and skills they need to achieve at school, university and beyond.

Leading universities around the world, including in the US and especially the UK, recognize the Cambridge qualifications.

# Curriculum

The Cambridge programmes combine an emphasis on mastering subjects in depth, at the same time as developing higher order thinking skills for study and work in the future.

Deep subject knowledge helps develop the ability to solve problems, to apply understanding to new situations, and to enable learners to progress to the next stage.

As well as encouraging pupils to develop higher order thinking skills within subject disciplines – problem-solving, critical thinking, independent research, collaboration, presenting arguments – we believe students need to work effectively across disciplines.

# Curriculum

Alongside the Cambridge curriculum, a majority of our pupils follow the National State curriculum and take the Unified State Exams that allows them easy access to State universities if a student chooses not to study abroad.

# Multilingual Education

- All subjects of the British curriculum are taught in English by experienced teachers from such countries as: the UK, USA, Canada, Australia, New Zealand, and South Africa. As a result, all our pupils have a fluent working knowledge and experience of English. Meanwhile, all the subjects of the State Curriculum are taught in national language by experienced teachers.
- There are numerous documented benefits enjoyed by multilingual children beyond knowing two or more languages fluently. Such benefits include improvements across all subjects, increased attention span, demonstrating more developed social and emotional skills, and protection against cognitive decline and dementia in old age.

# Teachers

- Every class has a qualified and experienced class teacher from the UK or elsewhere in the English speaking world. They have a teaching degree recognized for the purposes of teaching in the UK or overseas combined with a minimum of three years teaching experience in teaching the relevant age group or subject.
- But more importantly, we work with those who truly have a love for teaching and helping their students develop and grow both academically and as individuals.
- They are supported by talented and qualified national program teaching assistants who equally share their passion and commitment.

# Afterschool classes

In addition to the main program in our school, there are many groups and sections. We are sure that only the comprehensive development of the child can contribute to further successes in life!

Our talented and curious students are active and successful also outside the classroom, be it a section on jujitsu or robotics.

At CIS students choose from a wide variety of afterschool activities.

# Afterschool classes

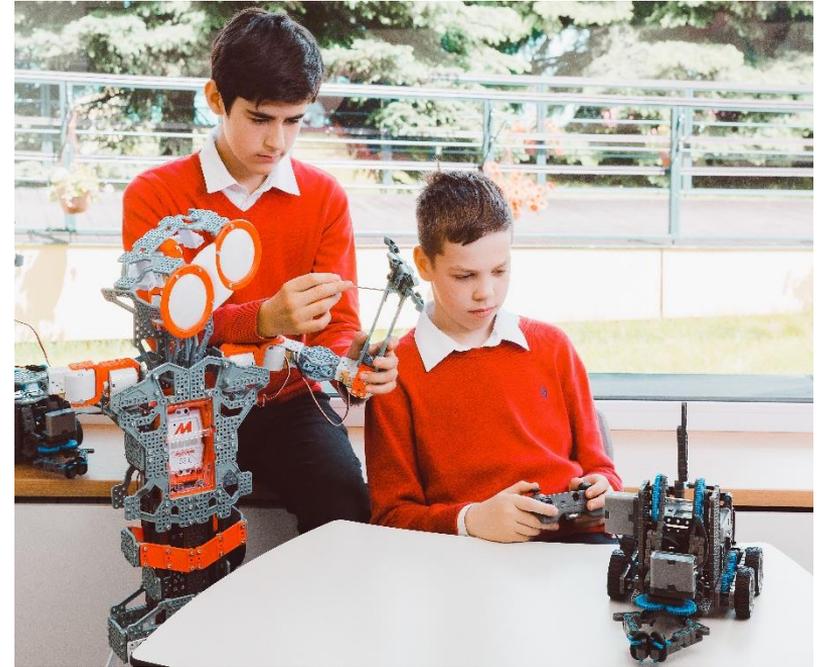

Our school has all the essentials for running great afterschool activities: laboratories for practicing the natural sciences, studios for painting and creativity, computer classes, spacious halls for dancing and theatrical art.

# Afterschool classes

- **Music:** Vocals, Pianoforte, Wind Instruments, Violin, Guitar, Solfeggio, Acting
- **Arts and Crafts:** Club of painting, Thermo mosaic, Knitting, Plasticine animation, Scrapbooking, Origami, Culinary club
- **Technical Clubs:** Robotics, Engineering Club, Programming, Mental arithmetic
- **Humanitarian Clubs:** Geographic circle, Foreign languages, Etiquette lessons, Conversations about art

# Safety and comfort

Number of students in class does not exceed 20 people

Comfortable opportunity and safe delivery by school buses

Ongoing supervision teachers and curators

Closed guarded territory with parking and video surveillance

Sports and playgrounds

Balanced meals four times a day

# CIS Skolkovo

350 students

---

The Skolkovo campus is located in the western part of Moscow in the vicinity of the Skolkovo Innovation Centre, surrounded by a national park and numerous sports fields.

- **Christopher Starling**,  
Chief Academic Officer of CIS  
Education Group,  
Head of campus Skolkovo

# CIS Moscow

90 students

The Moscow campus is located to the north of Moscow, amongst residential areas where a large number of visiting foreign families live, surrounded by beautiful gardens and parks. There are a large number of business centers near the campus.

- **Jessie Richardson,**  
Assistant Head  
of School

# CIS Gorki

120 students

The school is located in just 17 km away from Moscow, in the “Light House” residential complex. The newly built separate school and kindergarten buildings are equipped with modern facilities and have great transport accessibility.

- **Casey Barnes,**  
Head of campus

# CIS Saint Petersburg

160 students

---

The Saint Petersburg campus is located in the northern part of the city in a prestigious area close to the Gulf of Finland. The campus is close to Lakhta Centre in addition to Krestovskiy Island and Sestroretsk.

- **MaryKay Smith-Gudkova,**  
Head of campus

# CIS Tashkent

150 students

---

CIS Tashkent is located in a cosy and modern residential area near the city centre in Almazar district. The innovative educational complex includes a school and a full-time kindergarten for children for ages two and older.

- **Runar Salimullin,**  
Head of campus
