

## Mission Statement

Our mission is to develop a British International school in Mexico that offers the highest standards of teaching and learning through an integral study programme based on three-pillars: academic excellence, creativity and human formation.

The Wingate School enables children from all cultural backgrounds to value the joy of learning, and self-discipline, in order to fulfil their full potential. Our pupil-centred community also promotes a commitment to helping others, preparing students for the exciting challenges of our evolving global society.
