14 fedaan state-of-the-art campus
1593 students
over 300 teachers and administrators

El Alsson NEWGIZA is a private international school offering the choice between British and American education. Having moved to its newly established campus at NEWGIZA in 2017, it now occupies a 14 fedaan site with British Primary and Secondary joined buildings as well as Elementary and Senior joined buildings. It also has a standalone Performing Arts Hall featuring a radio room, music practice rooms, drama studios and a state of the art theatre along with a standalone Sports Hall featuring two heated indoor pools, basketball courts, a fitness gym and dance studio.

The school has a reputation as one of the best international schools in Cairo. This is reflected in the quality of our curriculum, extra-curricular activities, sports and artistic achievements and of course, outstanding examination results. Our students are taught by well-qualified teachers all of whom are experienced professionals with a proven track record or academic success.

El Alsson British International School

The British International School follows the National Curriculum of England, with some adaptations especially in history and geography where Egypt and the Middle East feature prominently. The curriculum is well-balanced and meets the needs of a wide range of children. In the Senior School, children take IGCSE/GCSE in Year 11, AS and A-level exams in Year 12 and 13. The examination results in recent years have been excellent, enabling students to enter prestigious universities in Egypt and abroad. All sections of the school teach the Ministry of Education Arabic and Religion programmes for Egyptian students. Students from expatriate families follow an Arabic as a Second Language course

as part of their studies. El Alsson offers a wide range of activities to enhance the broader curriculum: sports, performances, leadership programmes, charity projects, MUN and many other clubs.

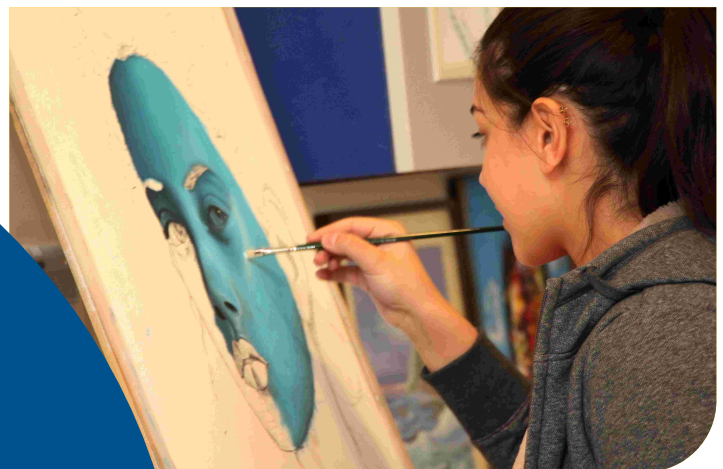

El Alsson American International School

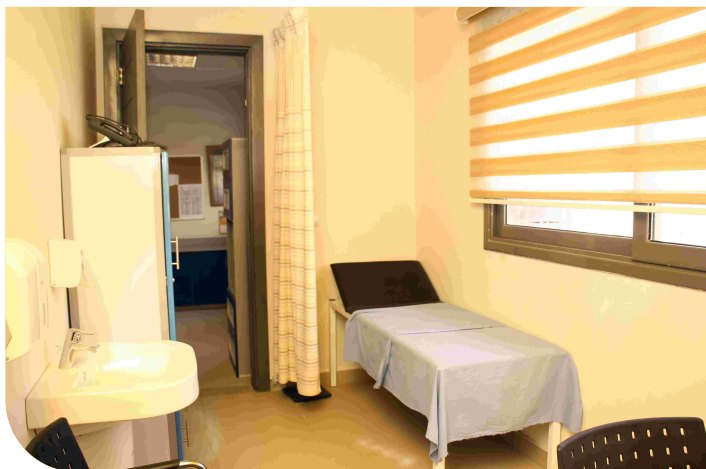

The American International School is available from
Preschool – G12. El Alsson offers the American curriculum in
a most professional and modern way and more than meets the standards of **NCA CASI (The North
Central Association Commission on Accreditation and School Improvement)**. The curriculum and
supporting programs are balanced and cater to the academic, social and emotional needs of children.
Our High School program offers students the choice of many electives and Advanced Placement
courses (AP), enabling students to enter prestigious universities in Egypt and abroad. An integral part
of the curriculum is the development of critical thinking skills. El Alsson offers a wide range of activities
to enhance the broader curriculum: sports, performances, leadership programmes, charity projects,
MUN and many other clubs.
