

Message from the Head Students

Ella

Poltair School has been transformational in my personal development. The school is a supportive, nurturing and understanding environment, which encourages every student fully.

Since joining Poltair I have had the opportunity to attend the G7 as a young journalist, as well as to reach the final of a global leadership competition. Both experiences have taught me so much and have given me skills for the future.

Our lessons are structured and productive, and due to the openness of teachers it's easy to ask for help when required, creating a supportive atmosphere in the classroom, making learning easier and more accessible for everyone.

The school actively encourages students to grow. This is evident through the recent development of our school council with many students feeling that this gives them a voice and the chance to make meaningful changes in the school. Personally, the expansion of the community within Poltair is something I am passionate about. In June 2021 I founded our school newspaper, Poltair Unfiltered. This was only possible due to the help from the Senior Leadership Team and other teachers across school. I am so unbelievably thankful for the staff here and their dedication to the school and its students.

Being a Poltair student of 5 years, I have grown to love the school and what it stands for. In my journey, I was able to witness the transformation of its behaviour policy, reward system, and increased extra-curricular activities. I have, like Ella, been given chances to grow and have been pushed to further my talents, much like all other Poltair students. This would not be possible without our amazing teaching staff, all of which have large pride in our school and believe in their students and encourage their successes.

I, as a Poltair student, am constantly seeing improvements in our learning. This is thanks to our enthusiastic Senior Leadership Team, who constantly enable students' opinions to be heard and strive for the school's growth. I am not just part of Poltair, but Poltair has become a part of me, a part I will forever be grateful for.

Although my journey is nearing the end, I know that Poltair will continue to strive to be the best. The school is committed to constant improvement and are looking for another inspirational and committed leader to help our school to continue to grow and flourish for many years to come.

Josh
