

VISION STATEMENT

Our vision is to develop all of our students as academic, characterful and happy young people, equipped with the knowledge, attitude and skills necessary to succeed in life. We view academic excellence as a right for all of our students, which will be underpinned through our work of developing excellence in character. We will achieve our vision through five pillars to maximize the success of every child.

High Expectations

We provide a high quality level of education which provides every child with a full range of opportunities to succeed. Our high expectations for academic achievement mean we seek solutions and ensure that learning is personalised to each student.

Quality Teaching

We recruit outstanding, innovative and committed staff who inspire and motivate students to learn through excellent teaching. The school focuses relentlessly on students so that they can achieve at the highest level and we celebrate this success as one community.

Students First

All children reach their potential. No child is left behind and all are treated equally. We are willing to alter what we do in order to achieve excellence for our students.

Power to Lead

We employ great leaders whose sole focus is to ensure all students are given every opportunity to learn and succeed; they work with all staff to ensure that they have the skills to reach every student.

Character Counts

Students, parents, teachers and staff create and reinforce a culture of achievement and respect through a range of formal and informal rewards for academic performance and behavior.

Our vision is to develop all our students as academic, characterful, happy young people equipped with our values and with the knowledge, attitude and skills necessary to succeed in life.

Our Values are Respect • Aspiration • Excellence • Collaboration • Responsibility
