

KING'S SCHOOL

THE CROWN

EXPERIENCE A NEW
STANDARD OF EXCELLENCE

An **inspired** school

I AM DELIGHTED TO INTRODUCE YOU TO KING'S SCHOOL THE CROWN, THE FIRST OF THE KING'S SCHOOL GROUP IN EGYPT.

Our school is unique – the first premium school group in Egypt to offer a truly through-school experience, designed by international educational experts to provide for the needs of pupils from as young as three months of age, through to university readiness at 18. Outside the classroom, we have industry leading facilities for sport, swimming and the performing arts.

A King's School education is about so much more than just academics. Our vision is to develop confident, thoughtful and knowledgeable individuals through a carefully balanced programme of academics, sports and the performing arts. These are our Three Pillars of Education and are what makes all King's students stand out.

Our programme of learning is grounded in the latest research in neuroscience and child psychology. Understanding this is the difference between enabling a child to reach a predetermined potential or developing individuals that are able to truly flourish.

We will be delighted to welcome you to our campus, to see our facilities and learn more of the curriculum. But more importantly, I look forward to learning more about your child and their education journey so far and showing you the difference a King's School education could make.

Joel Worrall
Executive Head

Access to the Inspired global network of over 80 schools provide unrivalled global opportunities

Specialised subject teachers for primary years and throughout their education

Hand-picked teachers from the Inspired network for best-in-class teaching

Guaranteed entrance into an Inspired boarding school for secondary education

Specialist coaching and counselling for entrance into US universities

INTRODUCING OUR SCHOOL

The Campus

Our campus is in the heart of The Crown, a Palm Hills development in 6th October city.

Caring for each individual child and nurturing their unique blend of talents and abilities is a central strand to the Inspired ethos, which has been reflected in the design of the campus. King's School The Crown is built in extensive grounds offering world-class educational and sporting facilities, enabling students to pursue a diverse range of interests. The school is 42,000 square metres and is home to a range of well-resourced specialist teaching facilities such as laboratories, drama studios, and music facilities to support the delivery of a personalised, flexible and relevant curriculum.

Technology is an important feature in teaching and learning, enhancing the curriculum both in and out of school; an area of focus from the outset for the Executive Head who leads a successful digital strategy in this ever-changing landscape.

OUR VISION IS TO BE AT THE FOREFRONT OF INTERNATIONAL EDUCATION.

Since 1969, the schools that form part of King's College Group have consistently delivered unparalleled excellent academic results, a history of excellence that will continue with King's School The Crown.

We also offer an unrivalled campus which boasts state of the art facilities, including: a full football field, 400m athletic track, 25m 8 lane covered swimming pool with learner pool, indoor multi-purpose sports hall, outdoor multipurpose courts, 522 seat performing arts theatre and a padel tennis court.

Our approach to teaching is defined by supportive academic excellence and the exploration of life skills to develop students' self-confidence and self-assurance.

We do this by delivering a focus on the individual and offering a broad curriculum based on the three pillars. Academics are at the centre of our approach but are also complemented equally by Sport and Performing Arts.

This rich curriculum ensures that every student can discover their passions and develop their skills. Students are encouraged and supported to excel across all areas, even those they find more difficult.

This vital approach values these developing competencies in young people, as well as the mental health and wellbeing of each student.

Our Three Pillar Approach

Academics

Our core of academia teaches our students critical and lateral thinking to inform the understanding and application of a wide variety of disciplines.

Sport

Our sporting pillar stands for health, wellbeing, fun, motivation, self-discipline, and self-esteem. Whether it's about involving students in team sports or introducing them to individual pursuits, we aim to provide an athletics programme to suit every student.

Performing arts

The arts help to instil confidence and self-assurance within our students to nurture and develop their interests for life. This confidence is derived from performance, the appreciation of the arts as fundamental to the human experience, and a creative approach to all that our students do.

Extra-curricular activities play a vital role in the overall educational growth and development of our students.

At King's School The Crown we encourage students to opt in to the different programmes on offer to help them

- Develop and enhance friendships
- Learn new skills
- Strengthen their physical and mental wellbeing
- Improve time management
- Enhance University applications

Extra-Curricular Programmes

Whether your child is interested in sports, performing arts, creative arts, learning a new language or academic activities, King's School The Crown will offer a programme that matches their interests.

INSPIRING CITIZENS OF THE WORLD

King's School The Crown is proud to be an Inspired school. Inspired is a leading global premium schools group educating over 65,000 students across an international network of over 80 schools on 5 continents.

Inspired schools are designed to inspire students to achieve their maximum potential in a nurturing, progressive academic environment from the ages of 3 months to 19 years. Inspired offers a new and contemporary approach to education by re-evaluating traditional teaching methods and curriculums to create a more dynamic, relevant and influential model that reflects current attitudes.

Our schools focus on the individuality of each child and develop their confidence through a broad and engaging curriculum. Our Three Pillars approach to Inspired learning has Academics at the centre with the two pillars of Performing Arts and Sports at equal strength and importance. This ensures we develop confident, thoughtful and knowledgeable young people.

We hand-pick teachers with the skills and imagination to turn the curriculum into dynamic lessons. Children are placed at the centre of their learning to give them the best chance of self-development.

The results of our approach speak for themselves. All our schools have a reputation for academic excellence, honed through our 50-year heritage, which has allowed us to craft an approach that works.

All Inspired schools are individually developed and designed in response to their environment and location, delivering an excellent education to their respective communities while also benefitting from the group's international best practice and global outlook.

A PREMIUM BRITISH AND INTERNATIONAL EDUCATION

Since 1969 King's College schools have been providing children and young people across the world with a rigorous and broad British curriculum education. Students from King's College schools continue their studies at some of the most prestigious universities in the world, with our alumni gaining the best opportunities to enjoy exciting careers in global corporations. We believe that the fundamental values that students learn while at King's College schools will also help them to have happy and fulfilling lives.

50 YEARS OF ACADEMIC EXCELLENCE

As part of the Inspired Education Group, King's College School is a leading member of the Council of British International Schools (COBIS).

The King's College schools are inspected to British Schools Overseas (BSO) standards. Our teachers are native English speakers, highly trained professionals, passionate about their subjects and about education, their expertise is what makes King's College schools so successful.

King's School The Crown opens in September 2023 in the spacious, gated community of The Crown, a Palm Hills development in 6th October city.

PHASES OF THE SCHOOL

Early Learning School (EL1 to Reception) – 3 months to 4 years

Families with younger children are catered for through our Early Learning School with purpose-built facilities and expert staff. Our ELS is influenced by the Reggio Emilia approach, which believes as a central tenant, that children are confident and capable learners from birth, the school's ELS curriculum follows the Inspired approach to Early Learning where children learn through play alongside specialist teaching in literacy and numeracy.

Primary School (Year 1 to Year 6)

The Primary School is a vibrant, lively community, with a broad curriculum where children are given space, countless opportunities and support to grow in confidence and discover their individual talents. A supportive teaching and learning environment, and a commitment to academic, creative, cultural and sporting excellence will enable a momentum to succeed.

Form Tutors are supported by subject specialist teachers and support staff who, together, bring a wealth of experience and diverse talents to the Primary School. Developing confidence is also a central importance to the community and children will be encouraged to explore and represent the core values of the school.

Senior School (Year 7 to Year 13) – 12 to 18 years

The Senior School provides a dynamic, flexible curriculum with a rigorous academic, creative and sporting education which aims to challenge and engage, offering a secure foundation on which to continue into higher education and beyond. Students will progress through international GCSE and A level or IB Diploma programmes. The wider curriculum develop lifelong skills in building and maintaining relationships; leadership skills; oratory and presentation competencies; and preparation for independence in adult life. This vital approach values these developing competencies in young people, as well as the mental health and wellbeing of each student.

University Admissions

Helping students navigate the most appropriate pathway for their aims and aspirations is a key part of the Sixth Form. Every student will receive university counselling to prepare them for any of the top universities around the world. Specialist staff and the School Principal work closely with the students, creating a strong record of successful entry to leading universities around the world.

Sports

With such a fantastic range of facilities on offer, sport and physical activity play a major part in school life for children of all ages. Whilst children are encouraged and coached to reach their full potential, the primary aim is for students to enjoy and participate in a wide variety of sports, including football, basketball, swimming, athletics, tennis volleyball and handball.

The Arts

Arts in various shapes and forms are integral to the school's extracurricular offering. The programme offered is as diverse as the students the school serves, including learning a musical instrument, experimenting with paints or singing in a choir. There is an emphasis on performance in the school at all levels. Multiple productions, workshops and exhibitions enhance the work of this vibrant department and enable the school to showcase student talent.

Student Wellbeing

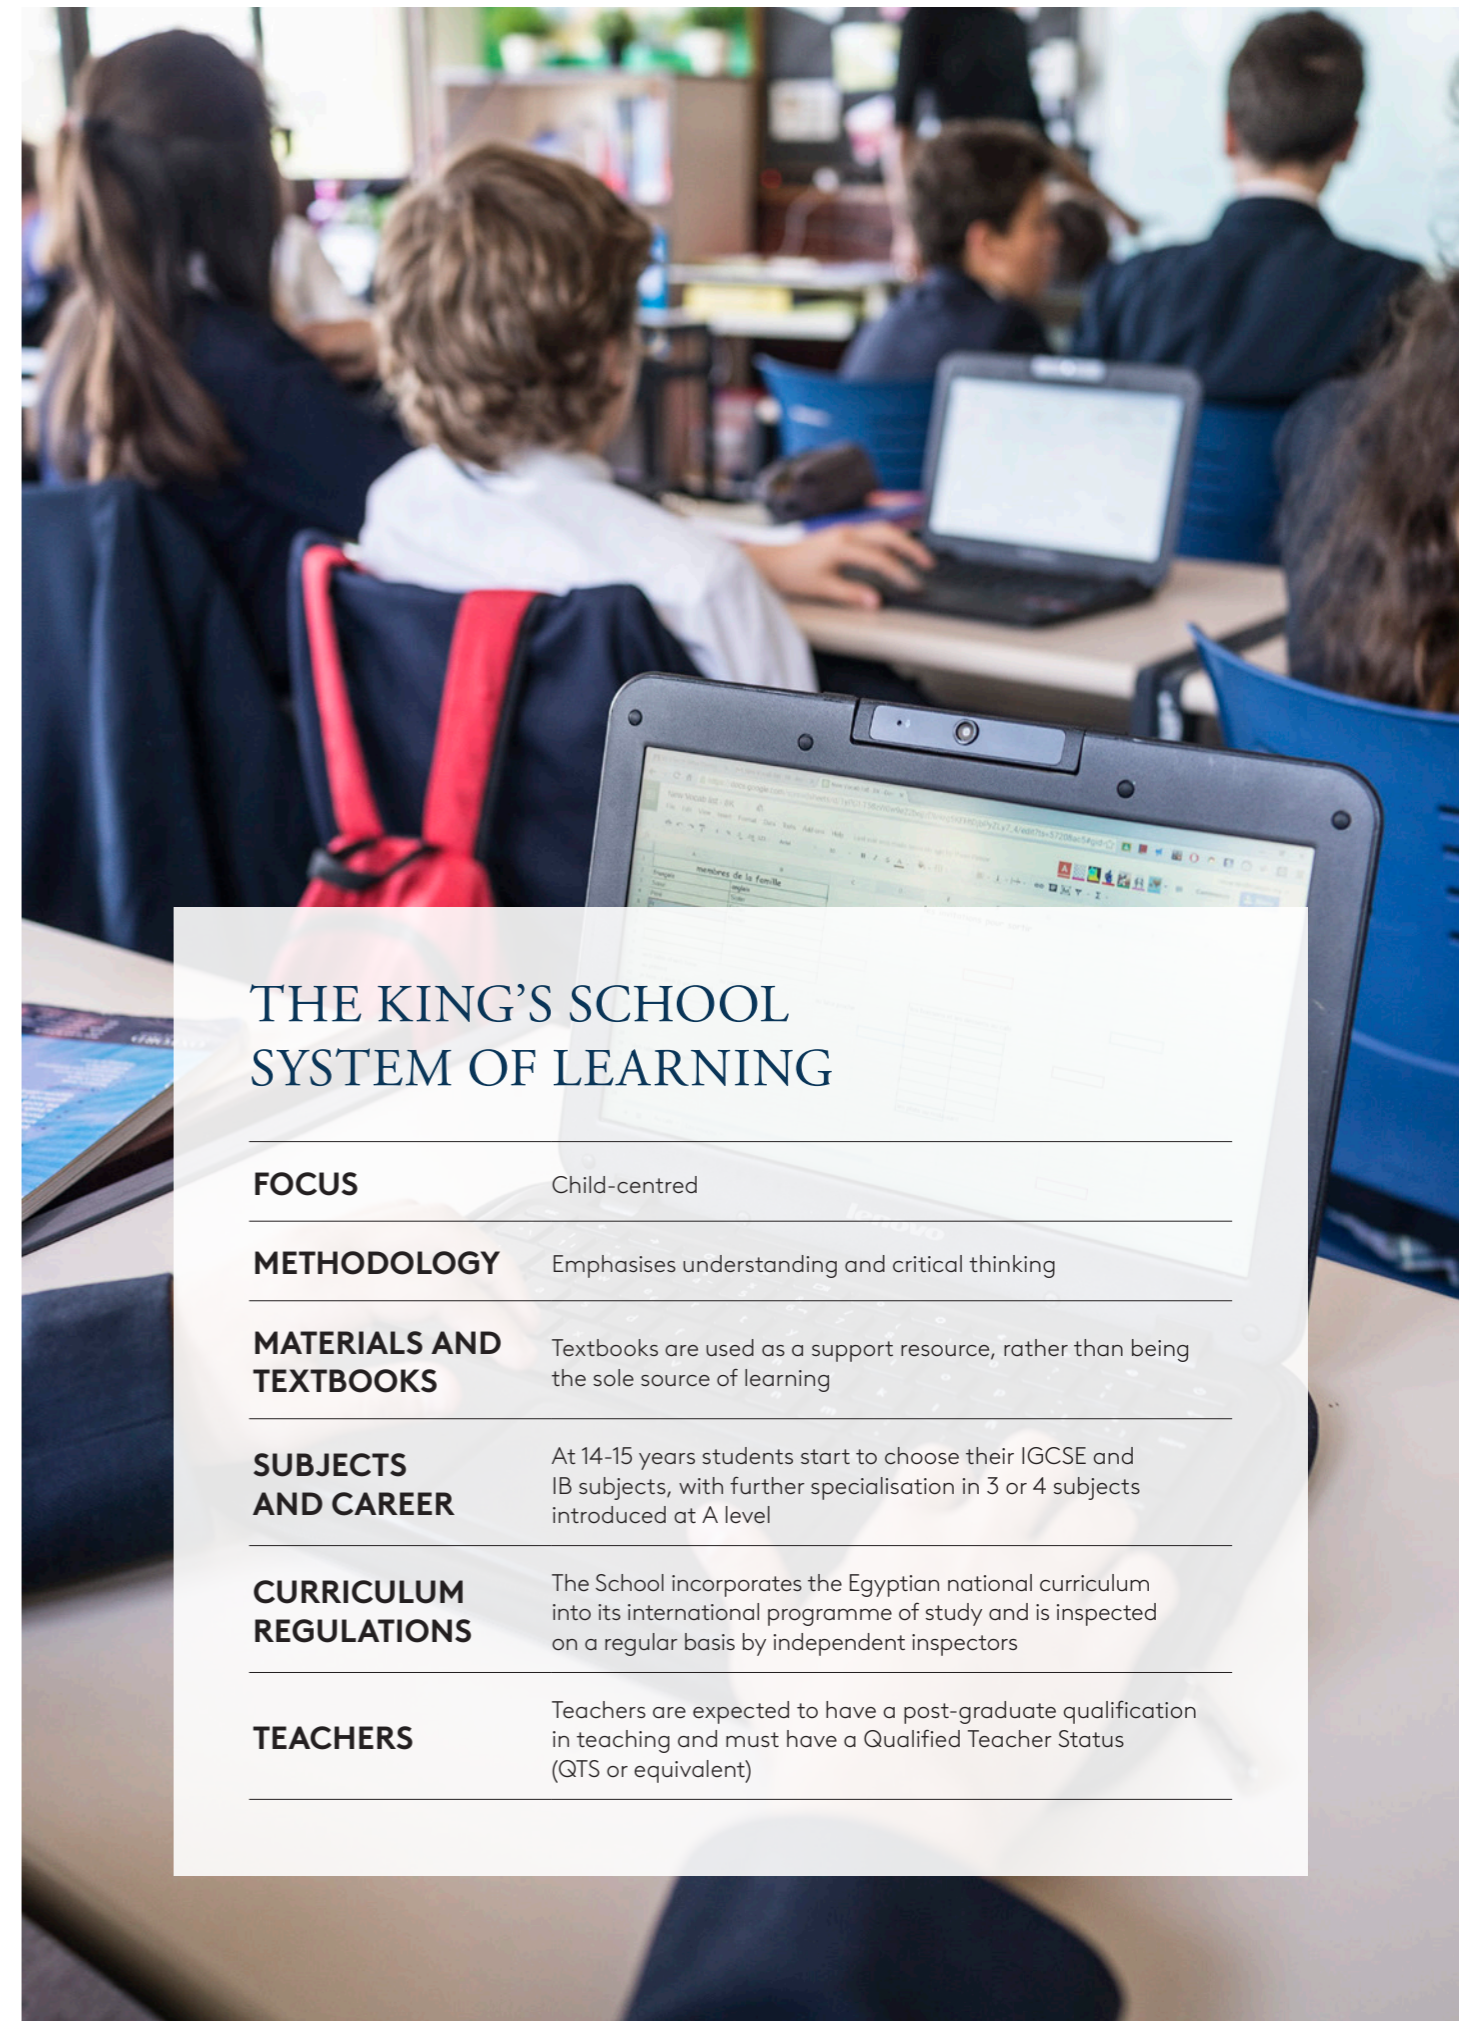

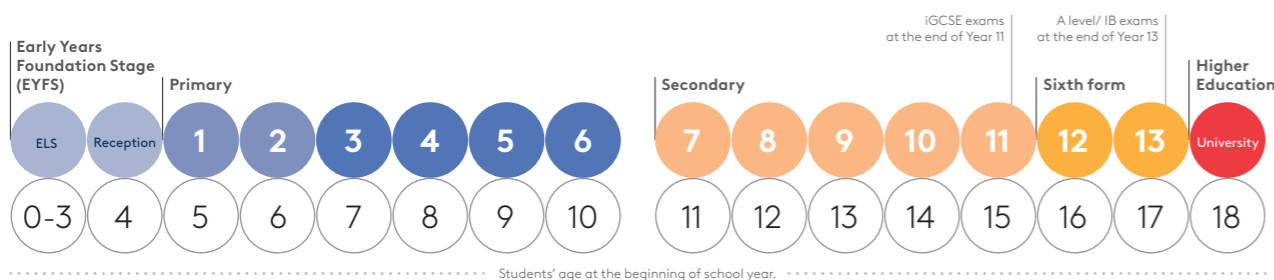

In line with the Inspired approach, the happiness and wellbeing of each student is at the heart of everything the school does. Each child is valued and nurtured as a unique individual receiving support and advice at every stage of their development.

A WORLD CLASS EDUCATION

A British education cultivates open-minded, dynamic individuals. Your child will learn from first-hand experience, not just textbooks. They will be encouraged to be creative in their thinking and are expected to interact, engage and focus on developing the skills they need. Benefitting from the group's international best practice and global outlook.

<p>PLAY TO LEARN Ages 3 months - 4 ELS to Reception</p>	<p>EXPLORATION AND EVALUATION Ages 5 - 7 School years 1 - 2</p>	<p>COMMUNICATE AND ARTICULATE Ages 7 - 11 School years 3 - 6</p>
<p>Young children learn through exploration. Everything they do, from kicking a ball, building with blocks and painting, to singing in a group, is done in English and it is designed to help them understand their environment. Sometimes it gets messy, but it's always rewarding and develops them socially, mentally and physically.</p>	<p>A more structured approach to the day helps children to start learning how to read, write and count in English. We still encourage children to explore and play, but they are able to describe their discoveries in words and numbers.</p>	<p>Children are naturally curious. In Primary school we encourage them to learn about things that interest them while strengthening their numeracy and literacy skills. We teach children how to apply these basic skills to other subject areas including Science, Art and History.</p>
<p>INTERROGATE AND DEBATE Ages 11 - 16 School years 7 - 11</p>	<p>THINK AND ACT Ages 16 - 18 School years 12 - 13</p>	<p>UNIVERSITY AND BEYOND Age 18+</p>
<p>As children get older, we teach them to analyse, to investigate, to test and think about things rationally. Classes are more focused on formal "subject-based" learning. Nine or ten IGCSE exams are taken at the end of this stage in different subjects.</p>	<p>The final two years at school mark the entry into adulthood. Students will have finished their IGCSEs and will choose their A levels or IB Diploma, which will enable entry into some of the top universities across the globe. Students will work hard to prepare for university and their future careers.</p>	<p>King's College students are well accustomed to attending some of the world's best higher education institutions. Academic success helps guarantee a good career but we also want children who have been to King's College to become good parents, partners and friends.</p>

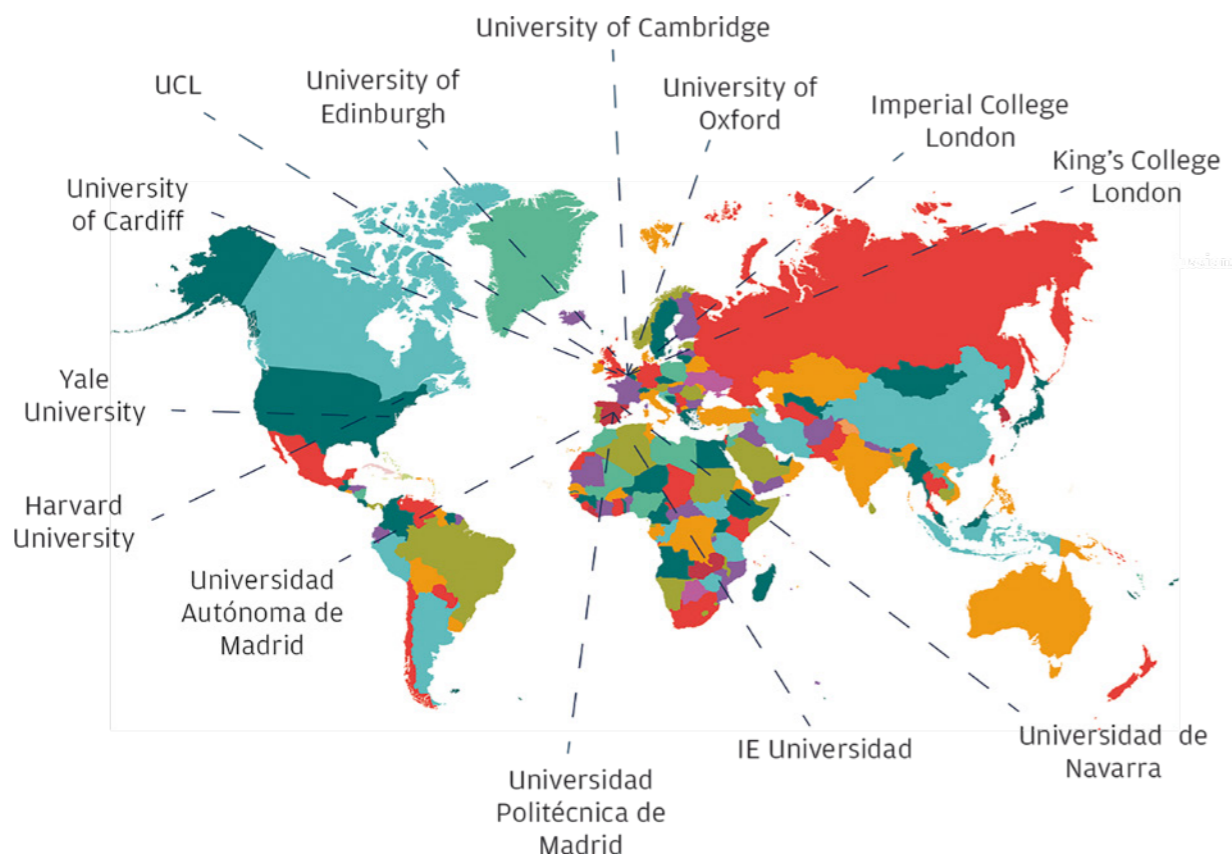

THE KING'S SCHOOL SYSTEM OF LEARNING

FOCUS	Child-centred
METHODOLOGY	Emphasises understanding and critical thinking
MATERIALS AND TEXTBOOKS	Textbooks are used as a support resource, rather than being the sole source of learning
SUBJECTS AND CAREER	At 14-15 years students start to choose their IGCSE and IB subjects, with further specialisation in 3 or 4 subjects introduced at A level
CURRICULUM REGULATIONS	The School incorporates the Egyptian national curriculum into its international programme of study and is inspected on a regular basis by independent inspectors
TEACHERS	Teachers are expected to have a post-graduate qualification in teaching and must have a Qualified Teacher Status (QTS or equivalent)

UNIVERSITY DESTINATIONS

King's School The Crown forms part of a network of International King's College schools, with seven sister schools located across Europe and the Americas. King's College schools are renowned for the excellent academic results that the students achieve in public examinations (the figures on page 9 demonstrate just some of these). We expect our students to go to

excellent universities. Across the King's College schools network, we are accustomed to our Year 13 graduates going on to study at some of the world's top university destinations including the United States and Europe. All of our students leave the school with a sense of confidence in themselves and a clear idea of how they can contribute to society.

KING'S STUDENTS STUDY AT THE BEST UNIVERSITIES AROUND THE WORLD

Academic excellence is key to all King's College and Inspired schools.

Our students leave school upon completing their studies in Year 13 to go on to join the world's best universities, including the UK's Russell Group, Oxford and Cambridge and America's Ivy Leagues, as well as many other top institutions across the globe.

90% of students go to their 1st choice university

JOIN US

King's College School Group comes with the heritage of 50+ years of academic excellence. We actively encourage communication between school and parents in order to build a strong school community. We encourage all our parents to actively participate in the education of their children and see this partnership as essential to the overall development of our students. Regular events are held throughout the year to build a cohesive community where students and families have the opportunity to get to know each other in a more relaxed, fun and informal setting. These events range from drama and music productions to school sports day and school fairs.

For students with a thirst for travel, we offer the Inspired Global Exchange Programme. A chance to explore via exchanges to our boarding schools across the world. Every exchange offers a unique opportunity to explore new environments, improve language skills, make new friends and experience new cultures. Exchanges are from four weeks to one year and we hold your place open in King's School The Crown, so you don't need to worry about what happens on our child's return. Visit our Global Exchange Programme on the Inspired School website.

To find out more, or for details of our admissions process simply register below and we will be in touch.

We look forward to welcoming you to our new school.
