# How Do We Learn Without Limits

The Unique Child reaches out to relate to people and things through the **Characteristics of Effective Learning**, which move through all areas of learning.

- playing and exploring
- active learning
- creating and thinking critically

Children develop in the context of relationships and the environment around them.

This is unique to each family, and reflects individual communities and cultures.

**Prime** areas are fundamental, work together, and move through to support development in all other areas.

- Personal, Social and Emotional Development
- Communication and Language
- Physical Development

**Specific** areas include essential skills and knowledge for children to participate successfully in society.

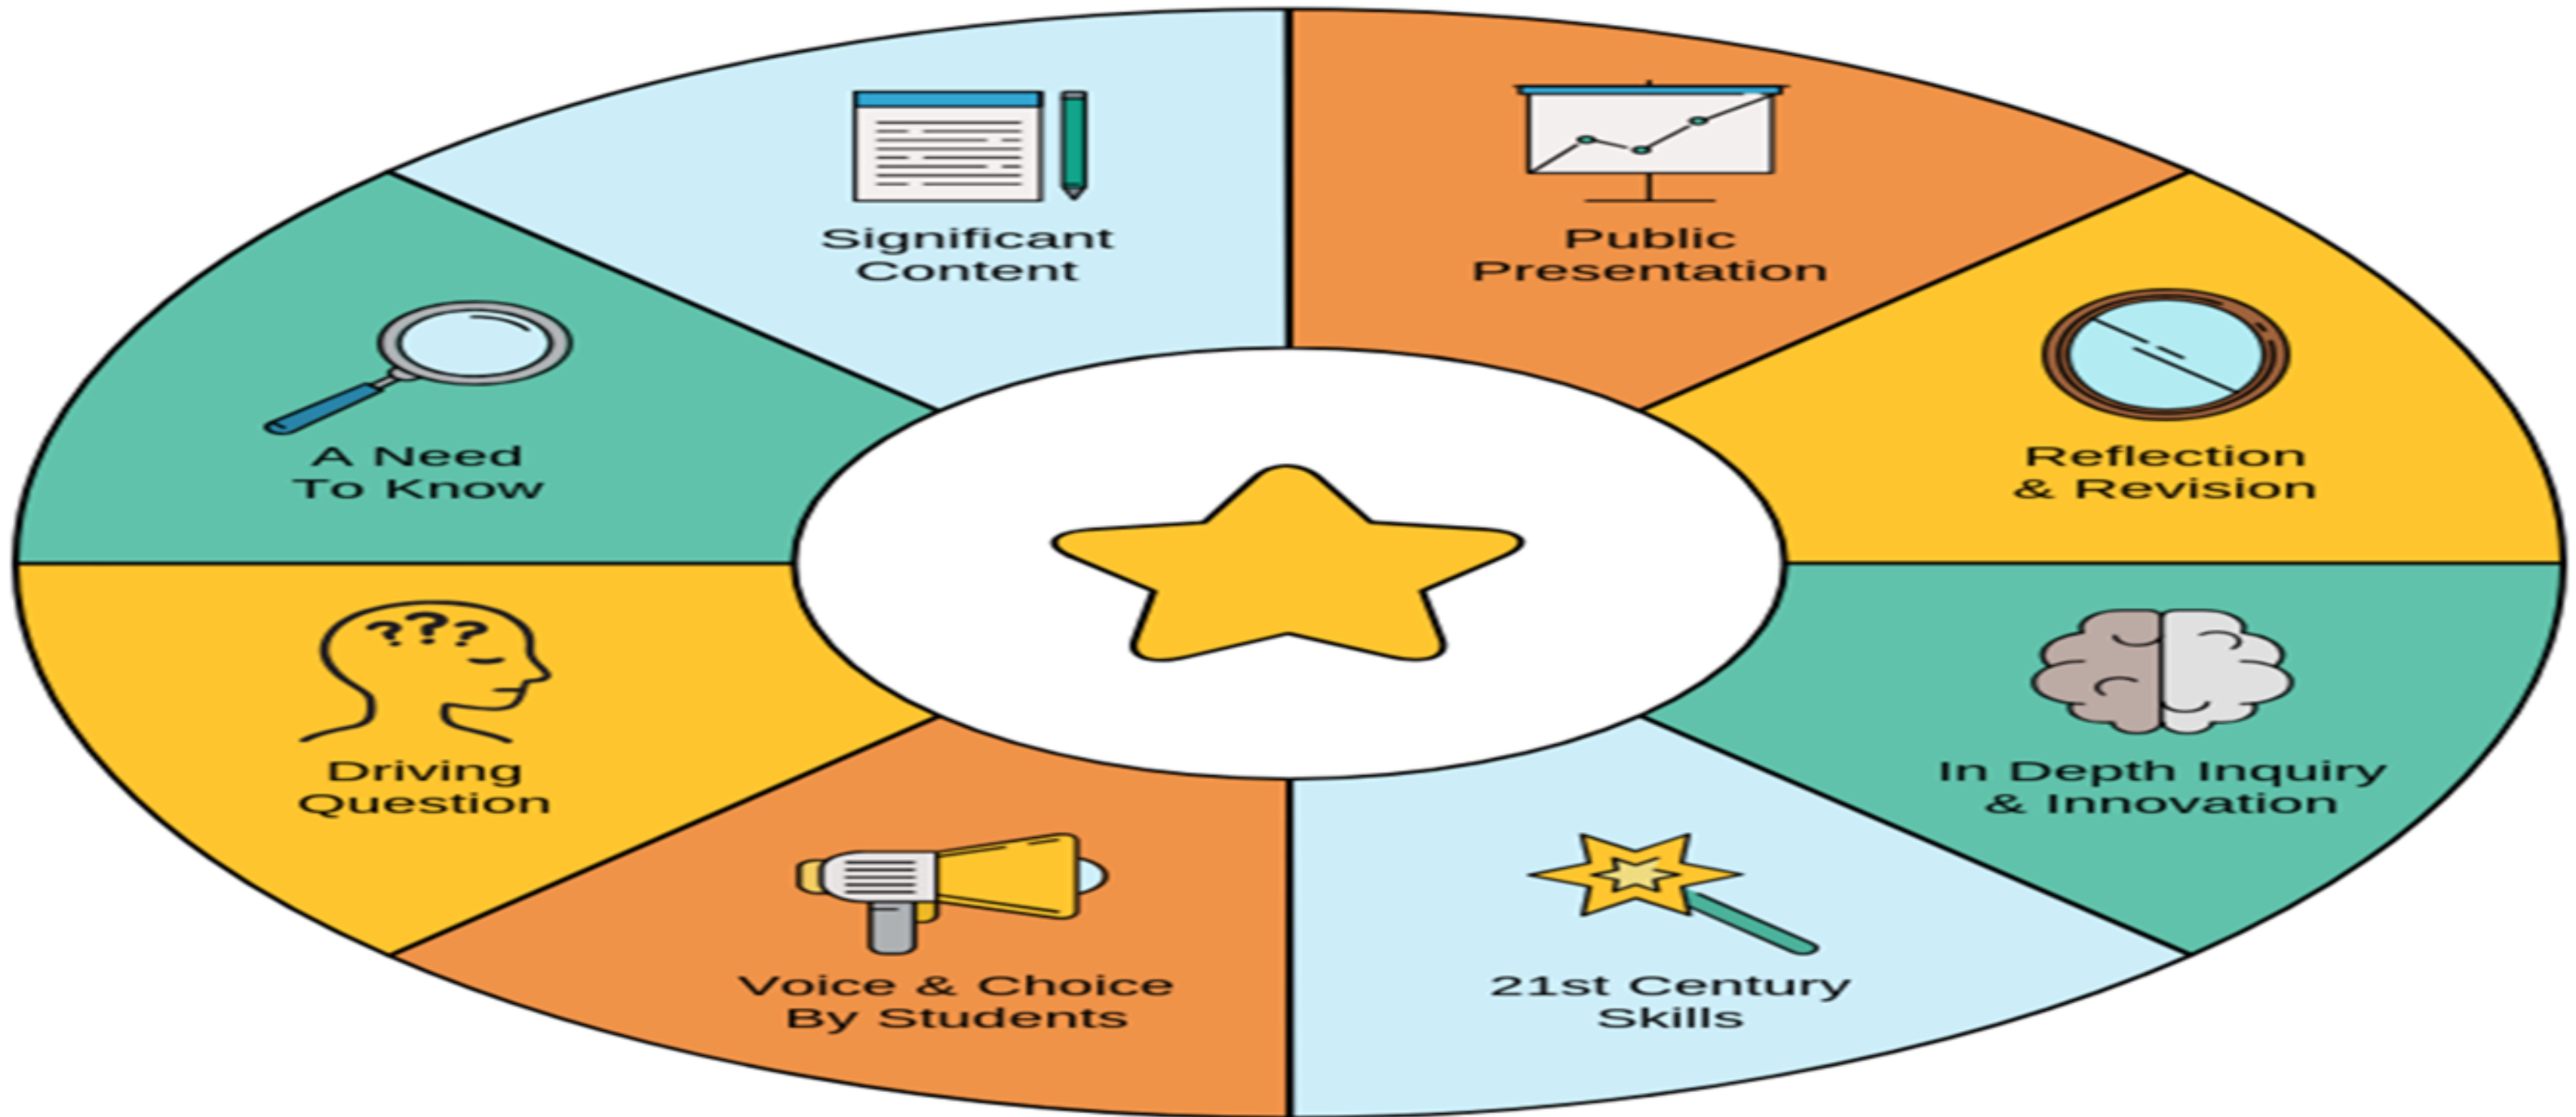

- Literacy
- Mathematics
- Understanding the World
- Expressive Arts and Design

# Primary & Secondary Project & Theme Based Learning
