

Our Vision and Values

Transforming Lives through kindness, respect and resilience

Our Vision

Our vision is to nurture a vibrant, inclusive learning community where every student thrives through the values of kindness, respect, and resilience.

Our Mission

We believe every student deserves the opportunity to thrive.

Our mission is to celebrate individual strengths and nurture independence, while placing kindness at the heart of everything we do. We strive to help students build respect for themselves and for the diverse views and values of others, fostering resilience that empowers them to achieve their aspirations and transform their lives.

Grounded in kindness and respect for every difference, we create a future where every student has the confidence, resilience, and skills to succeed.

A Place to Grow

We want our children and young people to be the best they can be within an environment that is suited to them. Through practical learning, animal-assisted experiences, academic challenge and personalised support, students are empowered to become valued members of their communities.

Our Vision and Values

Transforming Lives through kindness, respect and resilience

Our Values

Kindness

We show kindness by being caring, inclusive and thoughtful. We look out for one another, make positive choices and help create a safe, supportive community where everyone belongs.

Respect

We show respect by being kind, listening to others and treating everyone fairly. We value ourselves, each other and our differences, creating a safe, calm and inclusive school where everyone belongs.

Resilience

We promote resilience by encouraging pupils to keep trying, learn from mistakes and believe in themselves. We teach children that challenges help us grow, and we support them to persevere, manage setbacks and ask for help. By celebrating effort as well as success, we help pupils develop confidence and independence in their learning.
