

# COCKBURN

## MULTI-ACADEMY TRUST

TRANSFORMATION TO EXCELLENCE

C.E.O. Mr D Gurney B.A. Hons / NPQH

## The ICT & Computing Department

### The Department:

The faculty encompasses the subjects of ICT, Business Studies and Computer Science. The department is well resourced and each teacher is based in his or her own classroom and is expected to teach across the whole age and ability range. Each classroom is equipped with 30 computers and an interactive whiteboard. In addition to this, the department has access to technology in order to enrich lessons and enhance attainment. We are currently growing the department to offer ICT across both Key Stages and at Key Stage 4 will offer a range of courses so that each student can access a qualification, no matter what their ability. GCSE Computing, CiDA and GCSE Business Studies will be offered to all students starting in Year 9 with a wide range of units delivered.

### The Team:

Lee Hargreaves – Subject Leader of ICT & Business

Jaz Sagoo – Performing Arts Faculty Leader and Teacher of Media/ICT

### Key Stage 3:

Students in Years 7 and 8 are set by ability and follow an innovative and evolving curriculum which encompasses elements of both ICT and Computing.

Teaching units include Computer Hardware, Spreadsheet Modelling, Data Handling, Scratch/BYOB, Python, Web Design and Flow Charts

### Key Stage 4:

Students in Years 9, 10 and 11 are set by ability and work on the following:

- GCSE Computing
- CiDA
- iMedia

### Extra-Curricular:

Extra-curricular enrichment is well established with a lunch time Computer Club. Students also regularly attend after school to complete coursework as needed. Trips to local technology businesses also occur and we are keen to develop this further.
