- A positive understanding of the school, its ethos and community is essential

Background

The Theology and Philosophy department

The Theology and Philosophy department currently consists of two full time and one part time member of staff and continues to grow. Theology and Philosophy is a core GCSE subject for all pupils and the A level course also attracts good numbers and is increasing. This is a newly created role to accommodate the increase in pupil numbers and in anticipation of a further increase.

The department combines creativity and challenge to ensure pupils are thinking deeply about the issues covered and are able to clearly articulate their own opinions. Great emphasis is placed on debate and discussion and pupils are well equipped to consider a range of world views in a respectful and reflective way.

In Years 7-9, pupils study Christianity, Judaism and Hinduism, alongside a range of philosophical and ethical issues such as rules for living, human rights and peace and conflict. This forms a valuable foundation in both content and skills in preparation for the GCSE.

The GCSE syllabus is composed of the study of two religions – Islam and Christianity – as well as philosophy and ethics. Pupils consider the beliefs, teachings and practices of Islam and Christianity alongside considering a range of philosophical and ethical topics, including medical ethics, arguments for and against God's existence, religious experience and the origins of the universe.

In the interests of broadening the pupils' horizons, the Theology and Philosophy department runs a range of trips and recent trips have included visits to St Paul's Cathedral, a local mosque and Auschwitz, Poland. The department also organises trips to a Sikh Gurdwara and a Hindu temple and participates in a Humanities KS3 trip to various locations.

The department benefits from a great range of resources including a number of religious artefacts. All pupils in Year 7 are provided with a Bible and GCSE and A level students are given all relevant textbooks to their courses. Pupils attend lessons with their own laptops and the classrooms are well equipped to cater for this with wireless internet and projectors. Detailed schemes of work are in place to ensure consistency across the department and teachers are encouraged to show individual flair in their approach.
