## Head of Mathematics

September 2020

This is an opportunity to join one of the most high-achieving and forward-looking independent schools in London. We are looking for an outstanding Head of Mathematics to lead our thriving Mathematics department at this over-subscribed, academically selective school for girls aged 11 to 18.

Queen's College, London is seeking to appoint a well-qualified and inspirational classroom practitioner as Head of Mathematics. This is a crucial position of responsibility: the person appointed will provide academic leadership of the department and will work closely with the senior leadership team as part of our commitment to excellence in the STEM subjects. Mathematics is a popular A-level choice at Queen's and every year a number of pupils also take Further Mathematics.

As the first school in the UK to grant academic qualifications to women, Queen's has a proud history of educating some of this country's pioneering female mathematicians. This appointment represents an exciting opportunity for the right candidate to lead our Mathematics department and ensure we retain our position at the forefront of mathematical education for young women.

Applications should be made on the Queen's College application form and sent to the Assistant Bursar by post or e-mail ([rhall@qcl.org.uk](mailto:rhall@qcl.org.uk)). Applications must reach the College by noon on Monday 2 March 2020.

**Queen's College is committed to safeguarding and promoting the welfare of children. Applicants must be willing to undergo child protection screening, including checks with past employers and the Disclosure and Barring Service.**
