Our partnerships have demonstrable impact on students’ intellectual and socio-cultural development.

International partnerships include links with schools in Burundi and – through an Erasmus+ project for which Regent High School is the lead partner – Germany, Hungary and Spain. We have held a Leading Parent Partnership Award (LPPA) for four years.

With a view to promoting the outward facing nature of the school, there is plenty to be done in maximising the potential benefits of these impressive and expanding partnerships in preparing our students for higher education, developing employability skills and promoting an understanding of the global world of work. This is in addition to the benefits the partnerships are bringing in supporting the curriculum at subject level for STEM and arts courses.

Somers Town is in a ward which ranks in the most deprived 5% of neighbourhoods nationally in terms of socio-economic disadvantage. Many students at Regent High School face a number of complex barriers to being able to realise their full potential. This can affect their attainment, progression into higher education and into the world of work. The school is in the top 20% of all school for the proportion of Free School Meals (59%) and Pupil Premium (67%). The economic poverty within the area directly affects our students as they may have few creative and cultural experiences outside of school.

Primary partnerships

We work closely with our primary partners to ensure a smooth transition from primary to secondary school. We offer a number of transition programmes to invite prospective parents and pupils into the school before they start, establishing strong communications with parents from the outset. These include an annual Friendship Afternoons, curriculum-based projects and an Induction Day to guarantee pupils are confident before starting secondary school.

Our Facilities

Our £25m new building, completed in December 2014, was awarded a prestigious 2015 Camden Design Award, and has been shortlisted for a RIBA London award. The new facilities provide a fully equipped fitness suite, three all-weather multi-use pitches, science laboratories, a theatre with professional lighting and staging, drama studios, music recital rooms, music technology suite, a recording studio, four art studios, a media studies suite with Mac computers and a large library with a collection of over 12,000 books and other resources and with outstanding facilities for independent study.

The Camden Design Award panel described the Regent High School project as 'an accomplished and sleek re-imagination of an entire school despite budgetary constraints; re-orientating its entrance; providing high-quality teaching accommodation; improving community facilities and celebrating its role in the heart of Somers Town. Natural light, transparency and openness flood the site with a sense of wellbeing, connecting occupants to the landscape and bringing a positive contribution to the cityscape'.

Students respect their revitalised school buildings; the bright, clean and spacious learning environment provides a hub for the local community and partner primary schools. Increasing the use of these facilities is a work in progress, with potential to enhance community use, for both leisure and learning.

Travel

Staff are encouraged to use sustainable forms of transport to and from work. The nearest London Underground and King's Cross are from the nearby London stations.
